THE

TWENTY-FIRST REPORT

OF THE

COMMISSIONERS OF NATIONAL EDUCATION IN IRELAND.

(FOR THE YEAR 1854.)

TO HIS EXCELLENCY GEORGE WILLIAM FREDERICK, EARL OF CARLISLE, K.G.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

May it please your Excellency,

I.—1. We, the Commissioners of National Education in Ireland, beg leave to submit to your Excellency this our Twenty-first Report.

II.—2. On the 31st of December, 1853, we had 5,023 schools in operation, which were attended by 556,478 children. At the close of the year 1854, the number of schools in operation was 5,178, attended by 556,551; showing an increase in the schools in operation of 155; and an increase in the attendance for the year 1854, as compared with the year 1853, of 73 children. The smallness of this increase in the total number of children on the rolls, as contrasted with the much larger proportionate increase in the number of schools, may be partly accounted for by the fact, that there has been a decrease of 12,781 in the attendance in Workhouse Schools. Number of schools in operation.

3. We have made grants, at various times, amounting to £2,686 5*s.*, towards the erection of 30 ordinary National School-houses, which will contain in the whole 40 separate school-rooms. In addition to the ordinary National Schools not yet built, there are also in course of erection 7 Model School-houses of various kinds, containing in the whole 20 school-rooms. When these 37 buildings shall have been completed they will afford accommodation to 6,888 additional children. Of the above 30 grants, 14 were awarded during the year 1854, involving liabilities to the amount of £1,192 7*s.* 6*d.* Building grants.

4. The number of schools struck off during the year 1854, was 57;* 9 schools were suspended, which, however, may Total number of schools.

* Of the 57 schools struck off the roll during the last year, 53 had been previously in operation. To the remaining 4 schools grants for building had from time to time been awarded, which grants were cancelled for various reasons. The reasons in each case for their being so removed from our rolls are given in the Appendix.

hereafter be re-opened; and 229 schools were added to the list. The entire number of schools on our rolls, on the 31st December, 1854, was 5,247, including those in operation, those suspended, and those towards the building of which we have promised aid.

Increase in the number of Schools.

5. The following Table shows the number of National Schools, together with the number of children in attendance therein, as specified in our several Reports, to the 31st of December, 1854. From this return it will be seen that there has been a steady increase in the attendance at the National Schools every year, except in 1847 and 1849, in which the decrease is attributable to the causes adverted to in our Reports for those years.

Average number on the rolls of each school.

6. The total number in 1854, of 556,551 children, in the 5,178 schools in operation, gives an average, on the rolls, of 107·48 to each school.

Average daily attendance of pupils.

7. The subjoined Return shows that the average daily attendance of pupils for the half-year ended the 30th of September, 1854, was 267,099, and that the number on the rolls for the same period was, as we have already stated, 551,110.

* There was, in addition to these numbers, an attendance of 5,441 children, with a daily average of 2,557, in schools to which salaries were granted during the three months from the 30th September to the 31st December, 1854, making the total attendance on the rolls 556,551 (as stated in second paragraph of this report), with an average daily attendance of 269,666.

TABLE showing the total number of Schools in operation in each Province, on the 31st December, 1854, with the number of Children on the Rolls for the half-year ending 30th September, 1854; also the average daily attendance for the same period.

PROVINCE.	No. of Schools in operation on the 31st Dec., 1854.	No. on the Rolls for the half-year ending 30th September, 1854.	Average daily attendance for the half-year ending 30th Sept., 1854.

Total, . .	5,178	551,110*	267,099*

Decrease in the average daily attendance for the half-year ending the 30th Sept., 1854.

8. The average daily attendance of pupils for the half-year ending the 30th of September, 1854, as compared with that of the corresponding half-year, for 1853, exhibits a decrease of 5,065. This diminution may be partly accounted for by the fact, that there has been, as above stated, a considerable reduction in the number of children in the Workhouse Schools, in which the proportion of children in daily attendance to the total number on the roll is necessarily greater than it is in the other schools, from which the children have a greater liberty of absenting themselves.†

Number of National Schools in each province, with the number of children in attendance.

9. The following summary exhibits the number of National Schools, in each province, on the 31st of December, 1854, and the number of children on the rolls, for the half-year, ended the 30th September, 1854, distinguishing those schools which were in operation, those to which we have promised building grants, and those suspended.

‡ There was, in addition to this number, an attendance of 5,441 children in schools to which salaries were granted during the three months, from the 30th September to the 31st December, 1854, making the total attendance on the rolls 556,551, being an average of 107·48 children per school.

Return of new schools in 1854, arranged in provinces.

10. The annexed Tabular Return of the 229 schools added to our list during the year 1854, shows the number in each province, with the nature of the aid granted.

Number and religious denominations of the Patrons or Managers of the new schools added in 1854.

11. Of the 229 schools specified in the preceding table, 205 are under the management of 169 individuals, many of them having more than one school under their care. The following is the number of Patrons of each religious denomination:—Church of England—clerical, 2, lay, 18; Presbyterian—clerical, 17, lay, 4; Protestant Dissenters—lay, 1; Roman Catholic—clerical, 112, lay, 15. Total Protestants of all persuasions, clerical and lay, 42; total Roman Catholic, clerical and lay, 127. Of the remaining 24 cases, 3—of which 2 were Workhouse Schools, and one a Prison School—were added upon joint applications from persons of different religious denominations, and 21 are Model Schools, of which we are the patrons.

Number of schools brought into operation in 1854, towards the erection of which the Commissioners had made grants.

12. There were 20 vested schools opened during the year, towards the erection of which we had made grants. These are included in the 5,178 schools in operation on the 31st December, 1854, and their names will be found inserted in a list in the Appendix.

Total number of vested and non-vested schools.

III.—13. At the termination of the year 1854, we had on our list, vested either in Trustees, or in our Board, 1,100 school-houses, containing 1,621 rooms, accommodating distinct schools. The number of non-vested schools was 3,604, several of which, as in many cases of vested schools, are held under the same roof, though in separate rooms. There are, in addition, 17 school-houses about to be vested in the Board, the leases of which are in course of execution. These 17 school-houses will contain 22 distinct apartments.

14. The number of schools vested in Trustees, on the 31st December, was 989. In addition there were 541 (including 141 assigned) vested in us in our corporate capacity, and 91 schools for which we held bonds for the observance of our rules. There

* Of these 3, 2 were Workhouse Schools, and 1 a Prison School.

were also 22 schools towards which we had made building grants, the leases for which were not then executed.

15. During the year 1854, we made grants towards the repairs of schools vested in us, amounting to £866 12*s.* 5*d.* Repairs of school-houses vested in the Board.

IV.—16. The number of applications for grants to new schools in the year 1854, was 361. To 229 of these we promised the requisite assistance, either for building, or for salaries and books. The remaining 132 applications were rejected for various reasons, of which official records are kept. Applications for grants to new schools.

V.—17. The total amount of salaries, premiums, and gratuities paid, in 1854, to the principal literary Teachers of National Schools, Assistants, Paid Monitors, Workmistresses, Teachers of Agricultural Schools, Evening Schools, Workhouse Schools, and Organizing Teachers, was £94,090 16*s.* 5*d.*, being an increase over the amount paid in the year 1853, of £3,386 15*s.* Total amount of salaries, gratuities, &c., paid in 1854.

18. Since we adopted the principle of classing our Teachers according to their qualifications, we have on three several occasions, viz., in 1848, 1851, and 1852, increased the amount of their salaries. We propose to make a further addition from the 1st of April, 1855, in case the amount included in our estimate for the present year for that purpose shall be voted by Parliament. The following is a copy of the old and new scales:— Present and proposed Scale of Teachers' Salaries.

19. According to the new scale of salaries the average amount to each Teacher, by the Board, will not exceed £20 per annum. We do not consider that the rate of payment under the proposed scale ought to be the maximum of what our Teachers should ultimately receive, but any further increase should be progressive, and we trust that it may be possible to obtain a larger amount of local contributions towards this object.

Workhouse Schools.

X.—31. At the close of the year 1853 we had 141 Workhouse Schools under our Board. On the 31st of December, 1854, the number was 142, being an increase of 1 as compared with the preceding year. Of these schools 29 are in Ulster, 50 in Munster, 34 in Leinster, and 29 in Connaught. The number of Poor Law Unions, at the above date, was 163. There are, therefore, only 21 Workhouse Schools not connected with our Board.

* There was, in addition, one Female National Teacher trained, but not classed.

† This number is exclusive of Teachers in the Workhouse and Prison Schools, in connexion with us, and Teachers in Convent Schools, no record being kept of their classification—the former not being paid by the Board, and the latter being paid according to the average attendance in their respective schools. Teachers of District Model Schools are also not included.

32. The number of children on the rolls, in 142 Workhouse Schools, for the half-year ending 30th September, 1854, was 41,191, and the average daily attendance, 27,416, being a decrease in the number on the rolls, as compared with the previous year, of 12,781.

Gratuities to Workhouse Teachers.

33. The only assistance we grant, at present, to Workhouse Schools, consists of books at reduced prices; of free stock; gratuities to the Teachers, varying in amount from £3 to £6 yearly, and the advantages of periodical inspection. The total amount of gratuities to these schools in 1854, was £349, awarded in accordance with the following scale:—

Male Teachers.

2nd „ „ „ „ 10 „ 20 „ £4 „

District Model Schools.

XII.—35. We refer to the Reports of our Head Inspectors, which will be found in the Appendix on the condition of the District Model Schools. There are now ten in operation. The number of children on the rolls of nine of these schools, for the *half-year ended* the 30th of September, 1854, that number only of schools being then open, was 2,904, and the average daily attendance for the same period, 1,592. In the following table the total number on the rolls is divided into males, females, and infants:—

37. It appears from the foregoing Returns, that for *the week ended* the 31st of December last, the total number of children on the rolls of our District Model Schools was 2,059, of which 315 were of the Established Church, 1,403 Roman Catholics, 308 Presbyterians, and 33 were Protestant Dissenters.

District Model Schools at Kilkenny, Waterford, Limerick, and Belfast

38. Since the publication of our last Report the District Model School at Kilkenny has been opened, and is going on satisfactorily. In consequence of local opposition the number of children in attendance was for some time very limited; it is now gradually increasing, and the school is likely to confer great advantages on the town and neighbourhood. We have obtained possession of the ground, consisting of 79 statute acres, intended for a Model Farm, at a short distance from the school, and suitable Farm Buildings will be commenced during the present year. The District Model Schools at Waterford and Limerick

are completed; and they will be ready for the reception of pupils in July next. The Farm Buildings connected with the Agricultural Department of the latter school are in progress of erection. The District Model School at Belfast has been commenced, and is to be completed at the commencement of next year. We have taken 100 acres of land in the neighbourhood of the literary school, at a moderate rent, and on a satisfactory lease. We have given directions to our architect to prepare plans for the Agricultural Buildings with the least possible delay.

Maritime School at Belfast.

39. The site intended for the Maritime School at Belfast is not yet in a fit state for the erection of the buildings; in the meantime the plans of the schoolhouse and premises will be prepared.

Inchicore Model Railway School.

40. The Inchicore Model Railway School, in connexion with the Great Southern and Western Railway, was opened in October last. It comprises a Male, Female, Infant, and an Adult Evening School. It is in the charge of teachers well qualified for the discharge of their respective duties. The attendance is numerous, and the several departments efficiently conducted. Arrangements are in progress for opening an Evening School for the scientific instruction of the mechanics, artizans, and other workmen employed by the Company. This institution is designed to serve as a model for Railway Schools throughout Ireland.

Agricultural Schools. Dr. Kirkpatrick's Annual Report.

XIII.—41. Dr. Kirkpatrick, our Agricultural Inspector, has furnished his Annual Report for 1854, on the Model and other Agricultural Schools under our Board, and on the Model Farm at Glasnevin. We publish this document in the Appendix.

42. It appears, from a Tabular Return embodied in Dr. Kirkpatrick's Report, that on the 31st of December, 1854, the number of Model Agricultural Schools, either in full or partial operation, or in course of building, was 35; of ordinary Agricultural Schools, 47; of Workhouse Agricultural Schools, 70; of School Gardens, 3; making a total of 155, and showing an increase on the year, upon all these classes of schools, of 26.

Model Agricultural Schools.

43. We give in the foregoing lists, Nos. 1 and 2, the names of the Model Agricultural Schools in connexion with our Board, on the 31st December, 1854. They are divided into two classes. The first comprises those schools under our exclusive control. The second consists of those schools towards which we have made building grants, and awarded salaries and books,

but which are under the superintendence of local Patrons or Managers.

44. From these Returns it appears that of 35 Model Agricultural Schools 29 were in full operation at the end of the past year; 3 in partial operation, and 3 in progress of erection.

Workhouse Agricultural Schools.

46. It affords us much gratification to state, that there has been a considerable augmentation in the number of Workhouse Agricultural Schools during the year 1854.

47. The total number of Workhouse Agricultural Schools, on the 31st of December, 1854, was 70, of which 15 are in Ulster; 27 in Munster; 17 in Leinster; and 11 in Connaught. There has been an increase, on the whole, of 20 over the number for the year 1853. We attribute this result, in a great degree, as stated in our last Report, to the interest evinced by the Poor Law Commissioners for the advancement of agricultural instruction in connexion with the Workhouse Schools, and to an increasing conviction on the part of the local Guardians of its importance. Dr. Kirkpatrick points out in his Report many difficulties which impede the successful management of the agricultural departments in our Workhouse Schools, and the means by which he conceives they may be at least partially remedied. The attention of the local Guardians is specially directed to this portion of his Report.

Table of Agricultural Statistics in Appendix.

48. We insert in the Appendix, a Tabular Return showing the progress of the Agricultural Department for the year 1854, which is contained in the Report of our Agricultural Inspector.

Albert Agricultural Training Institution.

49. During the past year two sessional courses of lectures have been delivered at the Albert Agricultural Training Institution, on Chemistry and Geology, in their relation to Agriculture, by Professor W. K. Sullivan; on the History, Structure, and Treatment of Farm Animals, by Professor J. F. Hodges, M.D.; on Botany and Vegetable Physiology, by D. Moore, Esq. These lectures, which were illustrated with numerous and carefully executed diagrams, and valuable collections of minerals, &c., have not only been the means of directly affording to the pupils a thorough knowledge of the principles of their profession, but also of indirectly creating a taste for experimental inquiry, which, combined with their practical

knowledge and industrious habits, consequent on the efficient training they undergo, will, we confidently hope, materially tend to the advancement of agricultural improvement in this country.

Abstract of Agricultural Statistics laid before Select Committee of House of Lords.

50. The following is an abstract of the Statistical Returns laid before the Select Committee of the House of Lords last session, by Dr. Kirkpatrick, showing first the number who have followed up the profession of agriculture in after-life, viz.:—Assistant agricultural inspector, 1: clerkship in Education Office, 1; land stewards and agriculturists, 59; private farmers (either for themselves or parents), 18; land surveyors (civil service) and valuators, &c., 8; editor of an American Journal of Horticulture, 1; lecturer on Agriculture to the Normal Institution, Edinburgh, 1; teachers of model and ordinary agricultural schools, 24; total, 113. Secondly, those who have followed miscellaneous employments, namely, clerks, 7; literary teachers, 8; Kilmore Academy, 1; total, 16. Thirdly, emigrated and unknown, 31, of whom 5 finished the full course of training; the others spent various periods at the Institution varying from more than 18 months, but less than 24, to one month and under.

Templemoyle Agricultural Seminary.

51. In the early part of this year we received a communication from the Committee of the "Templemoyle Agricultural Seminary," Co. Londonderry, expressing their desire to place that institution in connexion with our Board as a Non-Vested Model Agricultural School, with a view of its receiving aid in salaries and books, and the benefits of inspection. The Agricultural Inspector, Dr. Kirkpatrick, having reported favourably on the management of the farm and the qualifications of the several teachers, we decided on granting the aid sought, and accordingly awarded an annual grant of £200, £80 being for the salaries of the agricultural and literary teachers, and £120 for the maintenance of twenty resident agricultural pupils, with the usual supply of literary and agricultural books. The grants were made on the express understanding that the rules of the institution should be in accordance with the general principles of our system.

Glasnevin Industrial School.

52. Our Industrial School in the Village of Glasnevin continues to be managed in a satisfactory manner, in conformity with the regulations described in our previous Reports. In the Appendix will be found Mr. Hawe's Annual Report.

Inspection of Schools.

XIV. 53. In our Eighteenth Report, for 1851, we announced that, with the view of securing a more frequent inspection of our schools, we had made a new distribution of our School Districts,

and increased the number from 34 to 44, of which 36 were in the charge of District Inspectors, and the remaining 8 under the superintendence of Sub-Inspectors. Since this arrangement was adopted, there has been a considerable augmentation in the number of our schools, which has rendered it necessary for the efficient working of this department of our service that a further increase should be made in the number of the District Inspectors. We have, accordingly, appointed 10 additional Officers of this class, making a total of 50; but we have reduced the number of Sub-Inspectors to 6. We have thus been enabled to reduce the area of the majority of the Districts; the average number of schools allotted to each Inspector still exceeds 100.*

Increase in the number of District Inspectors.

54. We have had for some time under consideration a plan for improving our system of inspection. We felt that something more was required to effect this object than a mere increase in the number of Inspectors. Those Officers have not, as a body, been heretofore adequately remunerated, nor had they any certainty of gradual promotion to stimulate their energies in the performance of their duties. We have, therefore, considered it advisable to divide the District Inspectors into two classes, the first to consist only of 12, and to be composed of 6 Protestants of different denominations, and an equal number of Roman Catholics; and we have adopted a graduated scale of salaries for each class.

Classification of the Inspectors, and increase in their salaries.

55. Under the former system the District and Sub-Inspectors were paid at a uniform rate of salary, out of which they had to defray all their travelling expenses.

56. From the 1st April, 1855, they are to be paid according to the following arrangement:—

The salary of a Sub-Inspector to commence at £200, and to rise gradually to £250 a-year.

The salary of a Second Class District Inspector to commence at £275, and to rise gradually to £305.

The salary of a First Class District Inspector to commence at £320, and to rise to £370.

57. The above-mentioned officers are to defray their travelling expenses, as heretofore, out of their respective salaries.

58. The increase in the salary of the Inspectors intermediate between the minimum and maximum rates, will in each case be dependent upon their conduct, and efficiency, in the discharge of their duties.

* See Appendix for Map of the 50 School Districts.

Code of instructions to Inspectors.

59. We have prepared with care, and are about to issue a new code of instructions for the guidance of our Inspectors, and we are engaged in carrying out other arrangements which, we confidently expect, will be calculated to render the inspective department more efficient. We publish the "Code of Instructions" in the Appendix.

Increase to the salaries and allowances of the Head Inspectors.

60. The Head Inspectors have heretofore received a salary of £300 per annum, with an allowance of 12*s.* 6*d.* per day for personal expenses, whilst absent from home on duty, and the actual cost of locomotion. Considering the importance of the office they hold, their practical experience in the business of education, and the qualifications required for the satisfactory discharge of the duties confided to them, we have deemed it right to raise the salaries of each to £400 per annum, with an allowance of 7*s.* 6*d.* per day for personal expenses when engaged on duty not requiring their absence at night from their official residences, and 12*s.* 6*d.* a day when absent from home on the public service. The average amount paid for travelling expenses to this class of our officers does not exceed £250 a-year each; and the total amount of expense incurred in keeping up the Inspectors' staff, composed of 6 Head, 50 District, and 6 Sub-Inspectors, is not quite £20,000 per annum.

Superannuation allowance to Teachers.

XV. 61. In our Thirteenth and Sixteenth Reports we adverted to the question of superannuation allowances to meritorious teachers who had become incapacitated by age or infirmity from continuing in our service; and in our Eighteenth Report we stated that the Lords of Her Majesty's Treasury had requested us to prepare a plan for carrying into effect this important object. We are of opinion, that in the present condition of the National Teachers in Ireland it would not be possible to obtain or just to deduct from them the necessary contributions for the establishment of a scale of retiring pensions, based on the principle adopted in some branches of the Civil Service. We have therefore suggested to the Lords of Her Majesty's Treasury that, instead of giving retiring pensions, we shall have the privilege of granting, in particular cases, to old, infirm, and deserving Teachers, who have been for a considerable number of years under our Board, reasonable gratuities, upon satisfactory reports from the Inspectors as to the character and conduct of the Applicants. We have already pursued this course to a limited extent, and have found it to have been productive of advantage in facilitating the appointment of competent succes-

sors to those Teachers who have thus been induced to resign. We have included in the estimate for the present year a sum for the purpose, and we propose that a moderate amount shall be added in every successive year, so as to create a reserve fund, to be specially appropriated to the same object.

62. A record will be kept of every grant of this description, and published in our Annual Reports.

XVI. 63. We had the satisfaction, last year, of announcing the liberal offer of Dr. Sullivan to place at our disposal the sum of £20 annually, to be awarded by us as premiums to the Teachers of National Schools in the counties of Down and Antrim, who should be found, at examinations held for the purpose, to be best acquainted with "the knowledge of common things." Dr. Sullivan's premiums to teachers for "Knowledge of Common Things."

64. Agreeably to the wish of Dr. Sullivan, we entrusted the work of conducting the first examination for these premiums to Mr. M'Creedy, one of our Head Inspectors. He, accordingly, assembled the candidates, male and female, in Belfast, early in December. They were subjected, each sex separately, to two days' examination on all the useful information contained in our Lesson Books.

65. Your Excellency is aware that the Lesson Books contain a large amount of instruction regarding agriculture, manufactures, and commerce; the phenomena of the simpler parts of Natural Philosophy, the principles of mechanics, and the results of machinery; the laws which govern our social and economical relations; the great truths of animal and vegetable physiology; the general conditions of life in health and disease, and the relation which these bear to the observance of cleanliness, ventilation, and other sanitary provisions and regulations.

66. The examination was in part oral and in part written; twenty-six male and sixteen female teachers attended. We have been gratified to learn that while all acquitted themselves throughout in a highly creditable manner, the answering of the successful competitors, and of some others, was of a very superior kind, and displayed great familiarity with the subjects treated of in our Books.

67. This experiment has been so successful, that we shall take into consideration the expediency of extending it to other parts of the country.

68. We publish, in the Appendix, Mr. M'Creedy's Report of the examination.

XVII. 69. We have received the Second Report of the Com- Opening of the

missioners of National Education in the Colony of Victoria, in which it is announced that the Model Schools and Training Establishment in Melbourne were opened on the 14th of March, 1854, with every prospect of success, under the superintendence of Mr. and Mrs. Davitt, whom we had recommended as persons distinguished in our service, and well qualified to preside over these institutions.

Revision and new arrangements of our Rules.

XVIII. 70. We have deemed it expedient, as your Excellency is aware, to revise our Rules, and to classify them under distinct heads, and capable of being easily referred to by the Patrons and Teachers of our schools, by our officers, and by the public generally.

71. In addition to the alterations we have thought necessary to make in some of our Rules, we have also deemed it desirable to introduce several regulations which though uniformly acted upon, and communicated to Managers of schools, are now for the first time publicly notified in our code.

Division of Rules into three parts.

72. We have divided our Rules into three Parts. Parts I. and II., embrace every thing relating to the general principles of our system. Part III. is confined principally to regulations of detail. The following are the Rules as revised, which have been submitted to your Excellency, and have received your approval. For convenience of reference, and in order to afford the means of comparison, we attach to this Report a copy of the old Rules.

Rules and Regulations of the Commissioners of National Education.

Part I.

I. Object and Fundamental Principle of the System of National Education.

1. The object of the system of National Education is to afford *combined* literary and moral, and *separate* religious instruction, to children of all persuasions, as far as possible, in the same School, upon the fundamental principle, that no attempt shall be made to interfere with the peculiar religious tenets of any description of Christian pupils.

2. It is the earnest wish of Her Majesty's Government, and of the Commissioners, that the Clergy and Laity of the different religious denominations should co-operate in conducting National Schools.

3. The Commissioners by themselves, or their Officers, are to be allowed to visit and examine the Schools whenever they think fit. Those who visit on the part of the Commissioners are furnished with credentials under their Seal.

4. The Commissioners will not change any fundamental Rule without the express permission of His Excellency the Lord Lieutenant.

II. *Management of National Schools.*

1. The local government of the National Schools is vested in the local Patrons thereof.

2. The Commissioners recognise as the local Patron the person who applies in the first instance to place the school in connexion with the Board, unless it be otherwise specified in the application.

3. If a School be under the local management of a School-Committee, such Committee has all the rights of an individual Patron.

4. The Patron has the right of nominating any fit person to act as his representative in the local management of the School; such representative to be designated the "Local Manager." The Patron may, at any time, resume the direct management of the School, or appoint another Local Manager.

This rule applies equally whether the Patronship be vested in one or more individuals.

5. When a School is vested in Trustees, they have the right to nominate the local Manager.

6. When a School is vested in the Commissioners, the name of the Patron or Patrons is inserted in the lease.

7. In the case of a vacancy in the Patronship by death, the representative of a Lay Patron, or the successor of a Clerical Patron, is recognized by the Board (where no valid objection exists) as the person to succeed to the Patronship of the School.

8. If a Patron wishes to resign the office, he has the power of nominating his successor, subject to the approval of the Board.

9. In all cases, the Commissioners reserve to themselves the power of determining whether the Patron, or the person nominated by him, either as his successor, or as local Manager, can be recognized by them as a fit person to exercise the trust.

10. In all cases, whether the School be vested or non-vested, the Patron, when nominating a local manager, ought to notify to the Commissioners, whether or not the person so nominated is to exercise all the rights of Patron during the period he acts as Manager.

11. When a School is under the control of a Committee, or of joint Patrons, a "Local Manager" should be appointed, to correspond with the office, sign documents, &c., &c.

III. *Description of Schools to which Commissioners grant aid.*

1. The Schools to which the Commissioners grant aid are divided into two classes, viz.:—1st, Vested Schools, which are vested in the Commissioners, or were vested previously to the incorporation of the Board, in Trustees, for the purpose of being permanently maintained as National Schools; 2ndly, Non-Vested Schools, which are the property of private individuals. Both these classes of Schools are under the control of Local Patrons or Managers.

2. There are also Model Schools, Literary and Agricultural, of which the Commissioners are themselves the Patrons, but

which are conducted on the same fundamental principles as the ordinary National Schools.

3. The Commissioners encourage Industrial instruction in National Schools in all suitable cases.

4. The Commissioners require that, in Schools attended by females, instruction shall be given (if practicable) in plain needlework.

IV. *Religious and Secular Instruction.*

1. Opportunities are to be afforded (as hereinafter provided for) to the children of all National Schools for receiving such religious instruction as their parents or guardians approve of.

2. Religious instruction must be so arranged, that each School shall be open to children of all communions; that due regard be had to parental right and authority; that, accordingly, no child be *compelled* to receive, or to be present at, any religious instruction of which his parents or guardians disapprove; and that the time for giving it be so fixed, that no child shall be thereby, in effect, excluded, directly or indirectly, from the other advantages which the School affords.

3. A public notification of the times for religious instruction must be inserted in large letters in the "Time Table" supplied by the Commissioners, who recommend that, as far as may be practicable, the general nature of such religious instruction be also stated therein.

4. The "Time-Table" must be kept constantly hung up in a conspicuous place in the School-room.

5. The Teacher must, immediately before the commencement of religious instruction, announce distinctly to the pupils, that the hour for religious instruction has arrived, and must, at the same time, put and keep up, during the period allotted to such religious instruction, and within the view of all the pupils, a notification thereof, containing the words "Religious Instruction," printed in large characters, on a form to be supplied by the Commissioners.

6. When the secular instruction precedes the religious instruction, in any National School, there shall be a sufficient interval between the announcement and the commencement of the religious instruction; and whether the religious or the secular instruction shall have priority in any National School, the books used for the instruction first in order, shall be carefully laid aside, at its termination, in the press or other place appropriated for keeping the School-books.

7. No secular instruction, whether literary or industrial, shall be carried on in the same apartment, during school hours,* simultaneously with religious instruction.

8. In Schools, towards the building of which the Commissioners have contributed, and which are VESTED in Trustees, for the purposes of National Education, or which are vested in the Commissioners in their corporate capacity, such pastors or other persons as shall be approved of by the parents

* The term "SCHOOL HOURS," is always to be understood to mean the entire time, in each day, from the opening of the School to the closing of the same for the dismissal of the pupils.

or guardians of the children respectively, shall have access to them *in the School-room*, for the purpose of giving them religious instruction there, at convenient times to be appointed for that purpose.

9. In Schools NOT VESTED, and which receive no other aid than Salary and Books, it is for the Patrons or Managers to determine whether any, and if any, what religious instruction shall be given *in the School-room;* but if they do not permit it to be given in the School-room, the children whose parents or guardians so desire, must be allowed to absent themselves from the School, at reasonable times, for the purpose of receiving such instruction ELSEWHERE.

In such Schools, the Commissioners do not insist that opportunities shall be afforded (as in the case of Vested Schools) for religious instruction being given *in the School-room*, by such Pastors, or other persons, as shall be approved by the parents or guardians of the children.

10. The reading of the Scriptures, either in the Protestant Authorized or Douay Version,—the teaching of Catechisms, —public prayer,—and all other religious exercises, come within the rules as to religious instruction.

11. The Patrons and Managers of *all* National Schools have the right to permit the Holy Scriptures (either in the Authorized or Douay Version) to be read, at the time or times set apart for religious instruction; and in *all Vested Schools* the parents or guardians of the children have the right to require the Patrons and Managers to afford opportunities for the reading of the Holy Scriptures, in the School-room, under proper persons approved of by the parents or guardians for that purpose.

12. Religious instruction, prayer, or other religious exercises, may take place, at any time, before and after the ordinary School business (during which all children, of whatever denomination they may be, are required to attend); but must not take place *more than once*, at *an intermediate* time, between the commencement and the close of the ordinary School business. The Commissioners, however, will not sanction any arrangement for religious instruction, prayer, or other religious exercises *at an intermediate time*, in cases where it shall appear to them, that such arrangement will interfere with the usefulness of the School, by preventing children of any religious denomination from availing themselves of its advantages, or by subjecting those in attendance to any practical inconvenience.

13. The secular School business must not be interrupted, or suspended, by any spiritual exercise whatsoever.

Note.—The Commissioners earnestly recommend that Religious Instruction shall take place either immediately before the commencement, or immediately after the close, of the ordinary School business; and they further recommend that, whenever the Patron or Manager thinks fit to have religious instruction at an intermediate time, a separate apartment shall (when practicable) be provided for the reception of those children whose parents or guardians may disapprove of their being present thereat.

14. Patrons, Managers, and Teachers, are not required to *ex-*

clude any children from any religious instruction given in the School; but all children are to have full power to absent themselves, or to withdraw, from it. If any parents or guardians object to the religious instruction given in a National School, it devolves upon them to adopt measures to prevent their children from being present thereat.

15. Patrons, Managers, and Teachers, are not to use any means, directly or indirectly, to induce children to attend any religious instruction, contrary to the wishes of their parents or guardians. The Commissioners will regard such interference as opposed to the whole spirit of the system of National Education.

16. If any child of a religious persuasion different from that of the Teacher of any National School, attend during the time or times set apart for religious instruction given by such Teacher, it shall be his or her duty, on the *first attendance* of every such child, during the time for such religious instruction given by such Teacher in such School, *forthwith* to notify the same to the parent or guardian of such child on, and by, a Form to be furnished by the Commissioners.

17. The Teachers are required to keep a record of the names of the children to whose parents they have sent the printed Form of notification.

18. The Registry kept in each School, according to the Form furnished by the Commissioners, must show the religious denomination of each child on the School Roll.

19. A sufficient number of hours, to be approved of in each case, by the Commissioners, is to be appropriated to the ordinary School business, during which all children, of whatever denomination they may be, are required to attend.

20. In all National Schools (except those in which Industrial Instruction is the *chief* object) there must be Literary instruction for at least *four* hours, upon five days in the week.

21. In Schools in which Industrial Instruction is the *chief* object, the Commissioners require that not less than *two* hours, daily, shall be devoted to literary instruction.

V. *Use of School-houses.*

1. In Non-Vested Schools, the Commissioners do not, in ordinary cases, exercise control over the use of the School-houses on Sundays, or before or after the School hours on the other days of the week; such use being left altogether to the Local Patrons or Managers, of all religious persuasions, subject to the interference of the Board in cases leading to contention or abuse.

2. No National School-house shall be employed, at any time, even temporarily, as the *stated* place of DIVINE WORSHIP of any religious community; or for the celebration or administration of the Sacraments or Rites of any Church.

3. No aid will be granted to a School *held in a place of worship;* nor will the Commissioners sanction the *transfer* of an existing School, to a place of worship, even for a temporary period.

4. When a School-room is in any way connected with a place of worship, there must not be any *direct internal* communication between the School-room and such place of worship.

5. Vested School-houses must be used, *exclusively, for the education* of the children attending them: except on Sundays, when they may be employed for Sunday Schools, with the sanction of the Patrons or Managers, subject, in cases leading to contention or abuse, to the interference of the Commissioners.

6. No political meetings shall be held in National School-houses, whether Vested or Non-Vested; nor shall any political business *whatsoever* be transacted therein.

VI. *Use of Books or Tablets.*

1. The use of the books published by the Commissioners is not compulsory; but the titles of all other books which the Patrons or Managers of Schools intend for the ordinary School business, are to be notified to the Commissioners; and none are to be used to which they object. The approval of any such books is to extend only to the particular edition which has been submitted to the Commissioners.

2. If any other books than the Holy Scriptures, or the *standard* books of the Church to which the children using them belong, be employed in communicating religious instruction, the title of each is to be made known to the Commissioners whenever they deem it necessary.

3. The Commissioners do not insist on the "Scripture Lessons" or book of "Sacred Poetry" being read in any of the National Schools, nor do they allow them to be read as part of the ordinary School business (during which all children, of whatever denomination they may be, are required to attend) in any School attended by children whose parents or guardians object to their being read by their children.

In such cases the Commissioners prohibit the use of these books, except at times set apart for the purpose, either before or after such ordinary School business, and under the following conditions:—

First—That no child, whose parent or guardian objects, shall be required, directly or indirectly, to be present at such reading.

Second—That in order that any children, whose parents or guardians object, may be at liberty to absent themselves, or to withdraw, at the time set apart for the reading of the books above specified, public notification of the time set apart for such reading shall be inserted in large letters in the Time-table of the School—that there shall be a sufficient interval between the conclusion of such ordinary School business and the commencement of such reading; and that the Teacher shall, immediately before its commencement, announce distinctly to the pupils, that any child whose parent or guardian so desires may then retire.

Third—That in every such case there shall be, exclusive of the time set apart for such reading, sufficient time devoted each

day to the ordinary School business, in order that those children who do not join in the reading of the books may enjoy ample means of literary instruction in the School-room.

4. When using the Scripture Lessons, the Teachers are prohibited, except at the times set apart for religious instruction, from putting to the children any other questions than those appended to the end of each lesson.

5. The Commissioners require that the principles of the following Lesson, or of a Lesson of a similar import (to be approved of by the Commissioners), shall be strictly inculcated, during the hours of united instruction, in all Schools received into connexion with the Board, and that a copy of the Lesson itself be hung up in each School.

Christians should endeavour, as the Apostle Paul commands them, to "live peaceably with all men" (Rom. ch. xii. v. 17), even with those of a different religious persuasion.

Our Saviour, Christ, commanded his disciples to "love one another." He taught them to love even their enemies, to bless those that cursed them, and to pray for those who persecuted them. He himself prayed for his murderers.

Many men hold erroneous doctrines, but we ought not to hate or persecute them. We ought to seek for the truth, and to hold fast what we are convinced is the truth; but not to treat harshly those who are in error. Jesus Christ did not intend his religion to be forced on men by violent means. He would not allow his disciples to fight for him.

If any persons treat us unkindly, we must not do the same to them; for Christ and his apostles have taught us not to return evil for evil. If we would obey Christ, we must do to others, not as they do to us, but as we would wish them to do to us.

Quarrelling with our neighbours and abusing them, is not the way to convince them that we are in the right, and they in the wrong. It is more likely to convince them that we have not a Christian spirit. We ought, by behaving gently and kindly to every one, to show ourselves followers of Christ, who, "when he was reviled, reviled not again" (1 Pet. ch. ii. v. 23).

6. The use of the Tablet, furnished by the Commissioners, containing the Ten Commandments, is not compulsory.

7. The rules as to religious instruction do not apply to the matter contained in the common School-books, in the Scripture Lessons, in the book of Sacred Poetry, or in any other book, the use of which the Commissioners may at any time sanction for the purpose of united instruction.

VII. *Appointment and Dismissal of Teachers.*

1. The local Patrons (or Managers) of Schools have the right of appointing the Teachers, subject to the approval of the Board, as to character and general qualifications; the local Patrons (or Managers) have also the power of removing the Teachers of their own authority. National Teachers should be persons of Christian sentiment, of calm temper, and discretion; they should be imbued with a spirit of peace, of obedience to the law, and of loyalty to their sovereign; they should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which

the Commissioners are anxious to find, to encourage, and to reward.

2. No clergyman of any denomination, or (except in the case of Convent Schools) member of any religious order, can be recognised as the Teacher of a National School.

3. Teachers of National Schools are not permitted to carry on, or engage in, any business or occupation, that will impede, or interfere with, their usefulness as Teachers. Teachers of National Schools are especially forbidden to keep public houses, or houses for the sale of spirituous liquors.

4. Should the Commissioners consider any Teacher in a vested school unfit for his office, or otherwise objectionable, they will require that he be dismissed and another provided: in non-vested schools the grant of salary will be withheld until a suitable Teacher be procured. Teachers are also liable to be fined or suspended, at all times, when the Commissioners shall deem it necessary, on sufficient cause being shown.

VIII. *Inspection by the Commissioners or their Officers.*

1. As the Commissioners do not take the control or regulation of any School, except their own Model Schools, directly into their own hands, but leave all Schools aided by them under the authority of the local Patrons or Managers (as stated in § II.); the *Inspectors* are not to give *direct orders*, as on the part of the Board, respecting any necessary regulations, but to point out such regulations to the local Patrons or Managers of the Schools, that *they* may give the requisite orders.

2. The Commissioners require that every National School be inspected by the *Inspector of the District*, at least three times in each year.

3. The *District Inspector*, after each inspection, is to communicate with the local Patron or Manager, for the purpose of affording information concerning the general state of the School, and pointing out such violations of rule, or defects, if any, as he may have observed; and he is to make such suggestions as he may deem necessary.

4. Upon ordinary occasions, the Inspector is not to give any intimation of his intended visit; but when the inspection is to be public, he is to make such previous arrangements with the local Patrons or Managers, as will facilitate the attendance of the parents of the children, and other persons interested in the welfare of the Schools.

5. The Inspector is to report to the Commissioners the result of each visit, and to use every means to obtain accurate information as to the discipline, management, and methods of instruction pursued in the School.

6. When applications for aid are referred to the District Inspector, he is to have an interview with the applicant; and also to communicate personally, or by writing, with the Clergymen of the different denominations, and with other parties in the neighbourhood, with the view of ascertaining their opinions

on the application, and whether they have any, and what, objections thereto.

7. The Inspector is also to supply the Commissioners with such local information as they may from time to time require from him, and to act as their agent in all matters in which they may employ him; but he is not invested with authority to decide upon any question affecting a National School, or the general business of the Commissioners, without their direction.

IX. *Admission of Visitors.*

1. The public generally must have free access to every National School (whether Vested or Non-Vested) during the hours devoted to secular instruction,—not to take part in the ordinary business, or to interrupt it, but, as Visitors, to observe how it is conducted.

2. Every Teacher of a National School is to receive courteously Visitors of all denominations, to afford them free access to the School-room, and full liberty to examine the Register, Daily Report Book, and Class Rolls; to observe what books are in the hands of the Children, or upon the desks, what tablets are hung up on the walls, and what is the method of teaching; but the Teachers are not required to permit any person to interrupt the business of the School, by asking questions of Children, examining classes, calling for papers or documents of any kind, except those specified, or in any other way diverting the attention of either Teachers or Scholars from their usual business.

3. Should any Visitors wish for information which they cannot obtain by such an inspection, it is the duty of the Teachers to refer them to the Patron or Manager of the School for such information.

4. Every Teacher is required to have his Visitors' or Daily Report Book lying upon his desk, that Visitors may, if they choose, enter remarks in it. Such remarks as may be made, the Teachers are by no means to alter or erase; and the Inspector of the district is required to transmit to the Commissioners copies of such remarks as he may deem of sufficient importance to be made known to them.

5. As the religious instruction of the Children given in the School-room, is under the control of the Clergyman or Lay person, communicating it with the approbation of their parents, the *Commissioners* can give no liberty to any Visitor whether Clergyman or other person, to interfere therewith, or to be present thereat.

X. *Miscellaneous.*

1. When any School is received by the Commissioners into connexion with them, the inscription, "National School," shall be put up in plain and legible characters on the School-house, or on such other place as may render it conspicuous to the public. When a School-house is built partly by aid

from the Commissioners, a stone is to be introduced into the wall having that inscription cut upon it. The Commissioners will not, when granting aid *in future*, sanction the inscription of any title of a *denominational character*, or which may appear to them to indicate that the school is one belonging to any particular religious body. The Commissioners, however, do not object to the terms, Male, Female, or Infant: or to the proper local designation of the city, town, parish, street, village, or townland in which the School may be situated; or to the name of the founder being stated on the Inscription.

2. Patrons and Managers are permitted to close their respective Schools for a reasonable time or times during the year, subject to the interference of the Commissioners in case of abuse.

3. No emblems or symbols of a *denominational* nature shall be exhibited in the School-room, during the hours of united instruction; nor will the Commissioners, in future, grant aid to any School which exhibits on the exterior of the buildings any such emblems.

4. No emblems or symbols of a *political* nature shall at *any time* be exhibited in the School-room, or affixed to the *exterior* of the buildings: nor shall any placards whatsoever be affixed thereto.

5. The Commissioners regard the attendance of any of their Teachers at meetings held for *political purposes*, or their taking part in elections for Members of Parliament, or for Poor Law Guardians, &c., except by voting, as incompatible with the performance of their duties, and as a violation of rule which will render them liable to dismissal.

6. The Commissioners require that a Copy of Part I. of their Rules, on a Form to be furnished by them, shall be suspended in every National School-room.

Part II.—Different Classes of National Schools.

I. *District Model Schools.*

1. District Model Schools are built and supported entirely out of the funds placed by Parliament at the disposal of the Commissioners, and are therefore under their exclusive control.

2. The chief objects of District Model Schools are to promote united education; to exhibit the most improved methods of literary and scientific instruction, and to train young persons for the office of Teacher.

3. In District Model Schools, the Commissioners appoint and dismiss, of their own authority, the Teachers and other officers; regulate the course of instruction, and exercise all the rights of Patrons. The Commissioners afford the necessary opportunities for giving religious instruction to the pupils, by such Pastors or other persons as are approved of by their parents or guardians, and in separate apartments allotted to the purpose.

4. Some of the District Model Schools have farms attached to them, for the purpose of affording instruction in agriculture.

II. *Agricultural Schools.*

1. Agricultural Schools of every class must have a literary department annexed to them, conducted on the principles of ordinary National Schools.

2. Agricultural Schools consist of two classes, Model and Ordinary.

3. Model Agricultural Schools are divided into two classes, viz., those under the exclusive control of the Commissioners, and those under local Patrons.

4. In all Model Agricultural Schools the Commissioners will grant salary to a Teacher for the literary department *exclusively*, when the extent of the farm and other circumstances render such an appointment necessary.

III. *Model Agricultural Schools under the exclusive control of the Commissioners.*

1. The Commissioners defray the greater portion of the cost of erecting the necessary buildings; but they require the local parties to contribute in such proportion as may be deemed necessary, according to the circumstances of each case.

2. The Commissioners undertake the *entire* cost of the furniture, fittings, rent, taxes, maintenance, implements, stock, &c., &c.

3. A Farm of sufficient extent must be conveyed to the Commissioners, at a moderate rent, and on a satisfactory lease.

4. The Commissioners exercise all the rights of Patrons, as in the case of District Model Schools.

5. The Commissioners admit into these Schools a limited number of free, and also of paying resident Agricultural Pupils.

6. The Commissioners contribute a small weekly payment to the Class of Day Pupils who work on the Farm.

IV. *Model Agricultural Schools (Vested and Non vested) under Local Patrons.*

1. *Vested Model Agricultural Schools.*

1. The Commissioners contribute a certain amount of assistance towards the erection of the buildings, in proportion to the amount of local contribution, and the extent of the farm. The remaining portion of the cost of the buildings and furniture, and the whole cost of implements, stock, seed, &c., must be contributed by local parties.

2 The site of the buildings must be legally vested in the Commissioners free of rent.

3. The only aid granted by the Commissioners towards the *maintenance* of such Schools, consists of salary to the Master, (who must be competent to conduct both the literary and agricultural departments); a sum towards the support of a limited number of resident Agricultural pupils, and a weekly payment to the class of day pupils who work on the farm.

2. *Non-vested Model Agricultural Schools.*

1. The entire cost of the necessary buildings, furniture, implements, stock, seed, &c., must be defrayed by local parties, and a farm of sufficient extent must be provided.

2. The Commissioners grant the usual salary to the Master, according to his class, as a literary Teacher, and an additional sum of £10 a year for his services as Agriculturist. They contribute also towards the support of a limited number of resident agricultural pupils, and a weekly payment to the class of day pupils who work on the farm.

V. *Ordinary Agricultural Schools.*

1. This class of Schools consists of ordinary National Schools, (either Vested or Non-Vested), to which a small farm (from one to three acres) is annexed. The Teacher must be competent to give instruction both in the theory and practice of agriculture, and must cultivate the land, with the assistance of his pupils.

2. The only aid granted by the Commissioners, is an addition of £5 a year to the class salary of the Teacher, and in some special cases, a small weekly payment to an Industrial class of pupils.

3. To entitle a School to such aid, the Commissioners require to be satisfied from the Reports of the Agricultural Inspectors, that the Agricultural department is efficiently conducted.

VI. *Agricultural Schools connected with Workhouses.*

1. In Workhouse Schools to which farms are attached, the Commissioners award to the Agricultural Teacher, a gratuity, not exceeding £15 in one year, and make a free grant of books on agriculture. These gratuities and grants are awarded on the recommendation of the Agricultural Inspectors.

VII. *School Gardens.*

1. The Commissioners award gratuities, on the recommendation of the Agricultural Inspectors, to the Teachers of National Schools, who exhibit the best specimens of garden culture, on ground attached to their respective Schools, the ground to be cultivated by the pupils.

VIII. *Industrial Schools.*

1. In these Schools, embroidery and other advanced kinds of needlework are taught. The Commissioners grant salaries to the Teachers, on the following conditions:—

First. That *all* the pupils of the industrial department shall receive literary instruction, for at least *two hours* daily.

Second. That no religious instruction or religious exercise shall take place during the time the pupils are engaged in industrial occupation.

Third. That a separate room be provided for industrial instruction.

Fourth. That in addition to the literary Teacher, there shall be a suitable person appointed to conduct the industrial department.

2. None but lay Teachers are entitled to a salary from the Commissioners, for conducting an Industrial Department in connexion with a *Convent School.*

3. The amount of salary will depend upon the circumstances of each case.

IX. *Convent Schools.*

1. Convent Schools receive aid under the conditions applicable to Non-Vested Schools, and they are subject to the same Rules and Regulations.

2. The members of the community may themselves discharge the office of Teachers, with, or without, the aid of such other persons as they may see fit to employ; the salaries of the assistants to be defrayed by the community.

3. The amount of salary awarded to Convent Schools is regulated by the average number of children in daily attendance, according to a scale laid down by the Commissioners.

4. The Commissioners will grant aid to *one School only*, in *connexion with the same* Convent.

X. *Workhouse Schools.*

1. Such Schools are received into connexion, and grants of Books made thereto, on condition that they shall be subject to inspection by the Commissioners, or their Officers, and that all the Rules of the Board applicable to Non-Vested Schools be faithfully observed.

2. The Commissioners award annual gratuities to a certain number of the Teachers of Workhouse Schools in each District, on the recommendation of the Inspector.

XI. *Schools attached to Prisons.*

Such Schools are received into connexion, upon the same general principles as the Workhouse Schools, and grants of Books are made thereto. In special cases gratuities are awarded to the Teachers.

XII. *Evening Schools.*

The Commissioners grant aid towards the support of Evening Schools, where the wants of the locality render such institutions desirable. The aid is limited to salary and books.

Part III.

I. Conditions upon which Aid is granted towards Building School-houses; towards Payment of Teachers' Salaries.—Classification of Teachers.—Scale of Salaries to Teachers, Monitors, &c.—General Regulations respecting the Training of Teachers, &c., &c.

1. The Commissioners of National Education grant aid under two general heads, viz.:—

First.—Towards building School-houses and providing suitable fittings and furniture. In such cases the Commissioners also grant aid towards the payment of Teachers, supply of Books, &c., as hereafter explained.

Secondly.—Towards the support and maintenance of Schools established by local parties, without any assistance from the Commissioners towards the erection of the buildings, or providing furniture.

2. The Commissioners desire it to be distinctly understood that they reserve to themselves the right to withdraw any grant of salary or books, whenever they see fit.

II. *Building (Vested Schools.)*

1. Before any grant is made towards building a School-house, the Commissioners are to be satisfied that a necessity exists for such a School, that an eligible site has been procured, that a satisfactory lease of the site will be executed to the Commissioners in their Corporate capacity; and that the applicant parties are prepared to raise, by local contribution, at least one-third of the whole sum which the Commissioners deem necessary for the erection of the house, providing furniture, &c.

2. If the proposed site be for a School in a rural District, and be within three statute miles of a School-house, towards the erection of which the Commissioners have contributed aid, no grant can be made.

3. Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore require that, before Church, Chapel, or Meeting-house ground be selected as the site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

4. The School premises must be vested in the Commissioners, at a nominal rent, and for such term, under the circumstances, as they may deem necessary.

5. The Commissioners will keep in repair the School-house and furniture, where the premises are vested in them in their Corporate capacity.

6. When the School premises have been vested in Trustees, for the purposes of National Education, it devolves on the Trustees to keep the house, furniture, &c. in repair.

7. When grants are voted towards the building, &c., of a School-house, the conveyance must be duly executed *before the works are commenced.*

8. No grant can be made until the District Inspector shall have reported upon all the circumstances of the case; until the Clerk of Works shall have reported on the eligibility of the proposed site; and the Law Adviser of the Board shall have given his opinion, from the information laid before him, that a satisfactory lease can be executed.

9. The Commissioners determine, from the information afforded them, what amount of School accommodation should be provided in the proposed building.

10. The Commissioners cannot, in any case, pay more than two-thirds of the sum which they may deem necessary for the erection of the School-house (including furniture, &c.); and they invariably require that the remaining one-third, at least, shall be locally provided for.

11. The cost of the house, &c., is determined by the number of Children which it is intended to accommodate.

12. The Commissioners furnish instructions as to the plan and specification, to which the parties receiving aid are bound strictly to adhere.

13. The Commissioners do not contribute to the ornamenting of School-houses but merely to such expenditure as may be necessary for having the Children accommodated in plain, substantial buildings. If buildings of another description be preferred, the whole of the extra expense must be provided by the applicants.

14. The Commissioners do not contribute towards the expense of erecting residences for the Teachers.

15. The whole of the works must be completed within twelve months from the date of the execution of the lease (unless by special permission), or the grants will be forfeited.

16. The Commissioners do not make advances or instalments of their Grants.

17. The house, furniture, &c., must be completed, and the School ready for the reception of the Scholars before the grant can be paid.

18. Previous to the payment of the grants, a certificate, according to a form furnished, must be forwarded to the Commissioners, stating that the School-house, furniture, &c., have been completed in a satisfactory and workmanlike manner, and built according to the dimensions and directions set forth in the plan and specification. This certificate to be signed by the Manager and by the Contractor. The work to be approved of by the Clerk of Works, or by any other person authorized by the Commissioners or the Government to examine it; and if a question arise as to the expenditure incurred, the accounts must be submitted to any audit which may be deemed necessary.

19. The Commissioners do not make grants to purchase School-houses, nor to purchase, alter, or furnish other houses, for the purpose of being converted into School-houses.

III. *Aids to Schools previously established.*

(*Such Schools come under the class of "Non-Vested Schools." See* PART I., *Sec.* 3, *p.* 23).

1. The aid granted to Schools previously established is limited to Salary and Books.

2. The Commissioners do not contribute towards Repairs, Fittings, Furniture; or to the Rent of the School-house.

3. Before aid can be granted, the Commissioners must be satisfied that the case is deserving of assistance; that there is reason to expect that the School will be efficiently and permanently supported; that some local provision will be made in aid of the Teacher's Salary, in addition to the School-fees; that the School-house is in good repair, and provided with a sufficient quantity of suitable Furniture; that a competent Teacher has been appointed; that the School is in operation; and that there is an average daily attendance of, at least, thirty Children.

4. The Commissioners reserve to themselves the right of making grants of "Salary and Books," in special cases, to Schools in which the average daily attendance of Pupils is below thirty, upon the following condition:—

> That so long as the average daily attendance continues under thirty, the Salary awarded shall not exceed that of a Probationary Teacher; but that whenever an average daily attendance of thirty Pupils, for a period of three months, can be shown from the Records of the School, the Teacher will then be paid the amount of Salary to which he or she may be entitled, according to the Scale of Classification.

5. Before the Commissioners consider any application for aid, they require, from the Inspector of the District, a report upon all the circumstances of the case.

6. To entitle a School to a continuance of aid, the House and Furniture must be kept in sufficient repair by means of local contributions; the School conducted in all respects in a satisfactory manner, and in accordance with the regulations of the Commissioners; and it must appear from the Records of the School, that there is a sufficient average daily attendance of pupils.

7. In Mixed Schools, *i.e.*, Schools in which male and female children are taught in the same room, the Teacher may be either male or female, as the circumstances of the School may require; but when a Mixed School has been received into connexion, by the Commissioners, under a male or a female Teacher, the Commissioners will not sanction the appointment of a Teacher of a different sex, unless previous application be made to them to sanction such change.

8. When a school has been taken into connexion, as a School for Males, or for Females solely, the Commissioners will not sanction the change from a male to a female school, or *vice versa*, without their permission having been previously obtained.

IV. *Workhouse Schools and Schools attached to Prisons.*
(*See* PART II., *Sections* 10 *&* 11).

V. *Classification and Salaries of Teachers, Monitors, &c.*

1. All National Teachers are either "Classed Teachers" or "Probationers." The former are divided into three classes :—

The class in which each Teacher is ranked depends upon his or her qualifications, as determined after examination by the Professors, or by the Inspectors.

All Teachers, on first entering the service of the Board, or who have not been classed, are termed Probationers.

There are, also, Assistant-Teachers, Teachers of Needlework, Paid Monitors.

2. The Commissioners have determined upon a course of study for each class, in which the Teachers are to be examined, as a test of their fitness for promotion.

3. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each class.

4. No Teacher will be admitted to examination with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

5. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of the respective District Inspectors, that the Schools are properly organized and well conducted; that adequate exertions have been made to keep up a sufficient average attendance; that the junior classes are carefully taught, and that a fair proportion of the pupils of the higher classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting-out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

6. It must also appear from the reports of the Inspectors, that the School accounts have been regularly and correctly kept; that the School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

7. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification, as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

8. All Teachers, who have not been classed, will be paid as Probationers, until they be classed at the first General or Special Examination, to which they shall have been summoned.

Those who then obtain classification, will be paid from the commencement of their service under the Board, according to the rate of salary attached to their class. This rule will not extend to any Teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

9. All Teachers, not previously classed, who shall be summoned to a course of training, are to undergo a Preliminary examination on their arrival in Dublin; and if then classed, shall receive the benefit of *such classification*, from the date of appointment to the date of the termination of the course of training; and they will receive the benefit of any promotion obtained at their second classification at the termination of the course, from the latter date.

10. All Teachers who have been unsuccessful at their first examination, and who may be retained on trial, will receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

11. Teachers who, after their first examination, have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors, after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

12. All Teachers newly appointed to National Schools, who, after examination by the Inspectors, may be found wholly unqualified, must be removed from the School; but salary will be paid, at the rate of a Probationer, up to the date of the order for removal.

13. If a Teacher who has been dismissed from a National School for any cause, be appointed to another National School, the Commissioners reserve to themselves the right to determine whether the appointment can be sanctioned, or any salary paid to such Teacher.

14. If a Teacher who has been a considerable period out of the service of the Board, shall again enter it, the Commissioners reserve to themselves the right to determine, in each case, whether such Teacher shall retain the class he was in, previous to quitting the service of the Board.

15. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment, in the district in which their Schools are situated, when they will be paid according to their classification, from the date of such examination.

16. All Teachers must remain at least one year in a lower division of any class, before they are eligible for promotion to a higher division; and they must remain two years in the same class before they can be promoted to a higher class. These conditions, however, being fulfilled, Teachers of superior attain-

ments may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers who cannot be placed in the first class) without being required to pass through the intermediate divisions: such promotion to date from the 1st of April in the year in which the examinations are held.

17. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

18. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors.

19. Trained Teachers, except at their own request, and with the sanction of the District Inspector, will not be required to attend any examination that may be held during the three years subsequent to the date of their classification by the Professors at the expiration of the course of training.

20. National Teachers, forty-five years of age and upwards, who have served under the Board for a period of not less than fifteen years, or Teachers who have attained fifty years of age, and served not less than ten years, will not be required to attend any examination, provided they have been already examined and classed by the Professors, or by the Inspectors.

21. Teachers who may have absented themselves, without satisfactory reason assigned, from the examinations of previous years, will be liable to be dismissed should they not present themselves when again summoned.

22. All Teachers also who may be *specially* summoned, and who shall be absent without a sufficient reason, will be liable to be fined or depressed.

VI. *Scale of Salaries to Teachers, Monitors, &c.*

1. *Ordinary National Schools.*

1. The Commissioners grant salaries to Teachers of National Schools at the following rates, subject to the foregoing and annexed regulations:—

		Males.	Females.
First Class Teachers,	1st Division,	£46	£36
	2nd Do.,	38	30
	3rd Do.,	32	24

Assistant Teachers, if qualified as Probationers only,		14	12
Do. if qualified for any Division of a Class,		17	15
Mistresses to teach Needlework,			8

2. The Commissioners require that a further income be secured to the Teacher, either by Local Subscription or School-fees, to such amount in each case as they may direct; and the Commissioners also require that the payments made by the

Children shall not be diminished in consequence of any increase of Salary which may be awarded to the Teacher.

2. *Model Agricultural Schools under exclusive control of the Board.*

Teachers of Model Agricultural Schools under the exclusive Control of the Board, receive such amount of Salary as the Commissioners deem sufficient, according to the circumstances of each case.

3. *Model Agricultural Schools under Local Patrons.*

Masters of Model Agricultural Schools under Local Patrons, who are competent to conduct both the Literary and Agricultural Departments, receive £10 per annum, in addition to the salary of the class in which they may be placed; but if their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a-year at least.

4. *Ordinary Agricultural Schools.*

Masters of Ordinary Agricultural Schools receive £5 per annum in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and that the Commissioners shall have previously approved of Agriculture being taught in the School.

5. *Assistant Teachers.*

1. The Commissioners will not grant a salary to an Assistant Teacher in any School in which there is not an average daily attendance of at least seventy-five pupils for three months previous to the date of application; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognised by the Board.

2. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers, or who are under eighteen years of age.

6. *Workmistresses.*

1. The Commissioners will not grant salary to Workmistresses, unless there be a sufficient average daily attendance of pupils; and the Commissioners require that at least two hours each day be devoted to instruction in this branch.

2. If any Workmistress whose appointment has been sanctioned by the Commissioners, be employed during the remainder of the ordinary school-hours in giving literary instruction to the junior classes, it is competent for the District Inspector, if he considers her qualified, to recommend that she be paid at the rate of salary awarded to "Probationers:" any increase of salary granted under this regulation is not to have a retrospective effect.

3. In Schools attended by Female Children only, under the

care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework: but if the average daily attendance of girls exceed fifty, for a period of three months, application may be made for a grant of salary to a Workmistress to take charge of the Industrial Department, which, however, must be superintended by the principal Teacher, who will be held responsible for its efficient management.

7. *Industrial Schools.*

In National Schools where embroidery and other advanced kinds of needlework are taught, the amount of salary granted for giving such instruction is regulated by the nature of the work, and the number of pupils engaged in it, subject to the conditions set forth in Part II., Sec. 8.

8. *Convent Schools.*

1. In Schools of this description, salary is paid according to a per centage on the average daily attendance:—

For 50 average daily attendance,	£10		
„ 100 „	20		
„ 200 „	40	Increase per cent.	£20 per annum.
„ 300 „	60		
„ 400 „	77		
„ 500 „	94	„	£17 „
„ 600 „	111		
Above 600 „	„	„	£15 „

2. Where the average daily attendance amounts to thirty above the 100, salary for fifty will be allowed; and when it exceeds fifty and does not amount to seventy-five above the 100, salary for three-fourths of 100 will be allowed; and when it exceeds seventy-five, salary for 100 will be allowed.

3. In cases where the average attendance does *not* amount to 100, salary to be paid thus—

For thirty children, and not exceeding fifty, £10 per annum.

When the attendance exceeds fifty and does not amount to seventy-five, £15 per annum will be paid.

When it exceeds seventy-five, to be paid at £20.

4. The Commissioners pay salary according to the average number of children in daily attendance at each Convent School, without reference to the number of rooms into which they may be distributed.

5. As the amount of salary will in all cases depend upon the average daily attendance of pupils, as shown by the quarterly returns, Managers are to be prepared for augmentation or diminution accordingly.

9. *Paid Monitors.*

SALARIES.

For the First Year,	£4
For the Second Year,	£5
For the Third Year,	£7
For the Fourth Year,	£8

1. The Paid Monitors are selected from among the best pupils in the National Schools of each district, and are appointed by the Commissioners upon the recommendation of the District Inspectors.

2. No Manager of a National School is obliged to employ the services of a Paid Monitor, unless he wishes to do so.

3. The appointment of a Paid Monitor cannot be held for a longer period than FOUR YEARS, at the expiration of which the salary will be discontinued.

4. The salary may, however, be withdrawn at any time, should want of diligence, of efficiency, or of good conduct on the part of the Monitor, or should any other circumstance, render such a course desirable.

5. The Commissioners select the Schools (on the recommendation of the Inspectors) in which the services of Paid Monitors may be employed.

6. When a vacancy occurs, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same School.

7. The School for which a Paid Monitor is recommended by the Inspector should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in a prescribed course.

8. The Programme of the course of study for Paid Monitors can be obtained on application to the District Inspector.

9. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, as candidates for the situation of Assistant Teachers, or of Pupil-Teachers in District Model Schools.

10. *Scale of Gratuities to Literary Teachers of Workhouse Schools.*

1. The Commissioners of National Education (with the concurrence of the Poor Law Commissioners) award gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes:—

For Male Teachers,	First Class,	Twenty	at the rate of £6	a-year each.
	Second Class,	Twenty	„ £4	„
For Female Teachers,	First Class,	Twenty	„ £5	„
	Second Class,	Twenty	„ £3	„

3. The payment will be made half-yearly, with the usual issue of salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two

or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received a gratuity for one half-year, is not thereby *entitled* to the payment of it for the succeeding half-year.

6. If the Local Guardians know any just cause for withholding the gratuity from the Teacher, they should return the receipt unsigned, and communicate to the Commissioners of National Education the grounds for so doing.

11. *Gratuities to Agricultural Teachers of Workhouse Schools.*

The Commissioners award annual gratuities to Agricultural Teachers of Workhouse Schools, not exceeding £15 to each, on conditions stated in Part II., Sec. 6.

12. *Scale of Premiums to Masters and Mistresses of National Schools, vested and non-vested, who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their pupils, and in the School-houses.*

1. The sum of £22 10*s.* will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of £4	£4
Two of £3	£6
Five of £1 10*s.*	£7 10*s.*
Five of £1	£5

2. These Premiums are awarded ANNUALLY on the recommendation of the District Inspector, at the expiration of the year.

3. No Teacher is eligible for this Premium for more than two years in succession.

4. These Premiums will be awarded without reference to the Class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

5. If the Patron or Manager of a National School knows any just cause for withholding the premium from the Teacher, he should return the receipt unsigned, and state his reasons for so doing.

VII. *Training of Teachers.*

1. The Commissioners have provided a Normal Establishment in Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools.

2. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from an officiating Clergyman of the communion to which they belong; also, a Certificate from a member of the Medical Profession that they are in good health, and free from any cutaneous disease; and must pass through an examination

in the Books published by the Commissioners. They are boarded and lodged at the Establishments provided by the Commissioners for the purpose. They receive religious instruction from their respective Pastors, who attend at the Normal Establishment at convenient times appointed for the purpose. On Sundays they are required to attend their respective places of worship; and a vigilant superintendence is at all times exercised over their moral conduct. The Teachers undergo a final examination at the close of the course, and they then receive a certificate according to their deserts. The Teachers for a considerable time previous to their being summoned, are required to prepare themselves for the course.

3. During the absence of the recognised Teacher, a temporary Teacher must be provided to take charge of the School, who is to be paid a portion of the salary falling due to the recognised Teacher during his or her attendance at the Normal Establishment.

4. Should any Teachers present themselves in a delicate state of health, or affected with any cutaneous disease, they will be required to return home at their own expense. No Teacher can be admitted who has not had the Small Pock, or been vaccinated.

5. The Teachers trained in the Normal Institution are divided into three Classes, namely:—

First—The General or Ordinary Class, composed of Teachers (males or females) of National Schools who have been recommended by the District or Head Inspectors as eligible Candidates for Training.

Second—The Special or Extra Training Class, composed chiefly of Teachers (males or females) who have been selected from the Ordinary or General Class, for additional Training.

Third—The Candidate or *Extern* Class is composed of a limited number of respectable and well-informed young persons, who wish to qualify themselves to act as Teachers. The Candidates admitted to this Class are permitted to attend, without any charge, the Model Schools and the Lectures of the Professors, and at the end of the course they are examined and classed as Teachers according to their merits and qualifications. Permission is also given to Teachers of Schools not connected with the Board to attend the Model Schools as *Auditors* or *Visitors*, for any period that may suit their own convenience.

VIII. *Books.*

1. The Commissioners furnish gratuitously to each School a first Stock of School-books, in proportion to the attendance of Children, which is renewed at the end of every three years. These books are to be kept as a School Stock, for which the Master or Mistress is held responsible, and they are on no account to be sold or taken out of the School. The Commis-

sioners also supply Books from time to time for the general use of the Children, and also School requisites, such as Paper, Slates, Quills, &c., at reduced rates.

2. The funds of the Commissioners do not enable them to give a Free Stock sufficiently large for the entire wants of the School. Any additional books, and maps; stationery, slates, clocks, and other requisites, must be purchased at reduced rates.

3. The value of the grant of Free Stock is regulated by the average daily attendance of Pupils as ascertained from the reports of the Inspectors. The Managers of Schools have the privilege of selecting their grants of Free Stock from the *whole* list of books supplied by the Commissioners, and are at liberty to choose such of them as they most approve of, and to omit any to which they object, except in the case of a *first Free Stock*, when the Commissioners require that a map of the world, and a set each of spelling and arithmetical tablets shall be procured.

4. When Books, &c., purchased from the Commissioners at the reduced price, are sold to the children attending a National School, it is directed that in no case shall any advance be made on these prices; and the District Inspectors have instructions to inquire into and report upon any infraction of this rule.

7. THE COMMISSIONERS WILL NOT WITHDRAW, OR ESSENTIALLY ALTER ANY BOOK THAT HAS BEEN, OR SHALL BE HEREAFTER, UNANIMOUSLY PUBLISHED OR SANCTIONED BY THEM, WITHOUT A PREVIOUS COMMUNICATION WITH THE LORD LIEUTENANT.

8. All applications for Books and Requisites at reduced prices must be addressed to the Secretaries, and be accompanied by a Money Order for the amount, in favour of MAURICE CROSS, or JAMES KELLY, Esq., and PAYABLE IN DUBLIN ON DEMAND.

9. Checks or Money Orders drawn on Country Banks cannot be received in payment for Books.

10. When a Post Office Order or Letter of Credit is transmitted, and the amount is under TEN SHILLINGS, the cost of the remittance must be paid by the Person applying for the same; but if the sum exceeds Ten Shillings, the cost of the remittance will be allowed, and Requisites given for the *full amount* PAID.

11. The Patron or Manager should not sign any Application for Books and Requisites without first ascertaining that they are actually wanted for the School, on behalf of which the application is made. The Inspectors are required to report to

the Commissioners whenever it appears that an undue quantity of Books or Stationery has been ordered for a National School.

12. All applications for Books and Requisites, at reduced prices, are to be PREPAID by the Managers, or the amount of postage will be deducted from the Grant.

13. When there are separate ROLL NUMBERS for Male and Female National Schools, the application should state for which of them the Books, &c., are required; and if for both, *two* forms should be used.

14. Parcels of Books, &c., when so desired, will be forwarded, carriage free, to the Depot of the District in which the School for which the Books are required is situated, and the Inspectors will inform the Managers on what day they will be ready for delivery; or to the Depot of any other District if more convenient; but in the latter case, the Inspector, not knowing the Managers of any Schools out of his District, cannot give notice.

15. Or the Parcel will be forwarded to any place nearest to the Manager's residence to which there is a mode of conveyance. In this case the Manager must point out the precise mode of conveyance by which the Parcel is to be transmitted, and he must also defray the cost of carriage.

16. When Parcels are forwarded to the Depot of a District it is *not* the duty of the Inspector to transmit the Parcel to the Manager's residence or to the School.

17. The Manager is required to send to the Depot on the day appointed by the Inspector for delivery of parcels, a Messenger who must present the order on the Inspector, with which the Manager will be furnished; and which order the Inspectors are required to transmit to this Office as a proof of the delivery of the Parcels.

18. If a Parcel is to be sent by a Carrier, he must call at the Office in Dublin not sooner than two days after the Manager's directions shall have been received, and must produce the Manager's order to the Storekeeper here, for its delivery, on the form supplied for the purpose.

19. The Commissioners do not supply Books or Requisites to the public, or to Schools not connected with the Board of National Education.

IX. *Miscellaneous.*

1. Persons desirous of obtaining assistance from the Commissioners of National Education, under any of the foregoing heads, will, upon intimating to the Secretaries the nature of the aid required, be furnished with the Forms, upon which their application must be laid before the Commissioners.

2. Applicants for assistance are not to understand that the Commissioners are bound to grant the full amount of aid, as set forth in the foregoing Regulations, in every case; nor can they grant any, unless they have sufficient funds for the purpose, which depends upon the amount placed at their disposal by Parliament.

3. The Commissioners desire it to be distinctly understood, that they do not hold themselves bound to grant aid, unless application shall have been made to them, in the first instance, on the proper form, and unless the application shall have been favourably and finally decided upon by the Board. Applicants, therefore, should not incur any expense towards the payment of which they expect the Commissioners to contribute, until the decision of the Board shall have been communicated to them.

4. All communications in reference to National Schools should be signed and made by the Patron or Manager. The Commissioners do not correspond with Teachers of National Schools.

5. No attention can be paid to "anonymous" communications.

6. All letters, or other communications, in any manner relating to the business of the Board, or to the National Schools, are to be addressed to the Secretaries, and not to any other Officer or person connected with the Board.

7. All letters, &c., to be directed as under.* No communications can be received which are not prepaid, except documents sent from this office, and which are required to be returned.

* *The Secretaries,*
Education Office,
Marlborough Street,
Dublin.

Correspondents are requested to attend to the following directions, viz. :—

1. To write at the head of any letter addressed to this Office the name of the School referred to, and the County in which it is situated.
2. To make communications on different subjects in separate letters.
3. To state in every case the writer's Post Town; and, in the case of persons whose names are not recorded as Patrons or Managers of Schools, to give the name and style of address in full.
4. In replying to an Official letter, to quote its Number and Date.
5. It is particularly requested that all letters may be written clearly, and on paper of Foolscap size, or, at least, large-sized letter-paper.

By order of the Commissioners of National Education,

MAURICE CROSS, } *Secretaries.*
JAMES KELLY, }

Education Office, Dublin,

73. When submitting the revised Rules to your Excellency, we called attention to such of them as seemed to us to require explanation.

Declaration of Commissioners as to withdrawal of Books.

74. We have annexed to Part III. of our Rules a complete list of the Books published and sanctioned by us for the use of our schools, to which we have appended the following declaration:—

75. "The Commissioners will not withdraw, or essentially alter any Book that has been, or shall be hereafter, unanimously published or sanctioned by them, without a previous communication with the Lord Lieutenant."

76. To prevent misapprehension with respect to our practice, we think it incumbent upon us to state, that we have never withdrawn any work from our list, except the "Lessons on the Truth of Christianity," published by us, and the "Introductory Lessons on Christian Evidences," *sanctioned*, but not published by us; and that those books were withdrawn after previous communication with the Lord Lieutenant.

77. Your Excellency will observe from paragraph 6, Section X., Part I., that the Commissioners require a copy of their General Rules to be suspended in every National School-room, for the information and guidance of Managers and Teachers.

78. With a view to afford the parents of children attending the schools, every facility for making themselves acquainted with the Rules framed to protect their children from all interference with their religious tenets, the Commissioners have resolved to append to the Lesson Books, a copy of the Rules bearing on this point.

79. A new form of Lease is in preparation, drawn up in accordance with the revised Rules.

XIX.—80. The account of receipts and expenditure has been made for the same period as the school statistics—namely, the year ending 31st of December, 1854.

XX.—81. We submit this, as our Report for the past year, to your Excellency, and in testimony thereof have caused our corporate Seal to be hereunto affixed, this First day of June, One Thousand Eight Hundred and Fifty-five.

(Signed)

MAURICE CROSS,
JAMES KELLY, } *Secretaries.*

APPENDIX A.

I.

I.—RULES and REGULATIONS of the COMMISSIONERS OF NATIONAL EDUCATION, and DIRECTIONS for making APPLICATION for AID towards the BUILDING OF SCHOOL-HOUSES, or for the SUPPORT OF SCHOOLS, as published in the Twentieth Report of the Commissioners.*

1.—The Commissioners grant aid towards the Building and Support of Schools of two Classes, Elementary Schools and Schools of Industry; but they can grant aid only to a limited number of the latter, and these must be at certain distances from each other. It is an indispensable condition for aid towards a School of Industry, that a Work-room shall be annexed to it, if it be situated in a City or Town; and if it be a Country or Rural School, that a certain quantity of land shall be provided for Garden culture.

It is, however, for the Patrons of each National School to determine whether they will make Agricultural or other industrial instruction part of the Education which it affords. It is for the Commissioners to do what they can in aid of their efforts, by having the Teachers taught the principles and practice of improved Agriculture during their Training Course, and by receiving Agricultural Pupils at the Model Farm, Glasnevin. The Commissioners consider Schools for Females as of the class of Elementary Schools; but they require that instruction be there given in Sewing, Knitting, and other works suited to Females.

II.—*As to Government of Schools with respect to Attendance and Religious Instruction.*

1. The ordinary School business, during which all children, of whatever denomination they may be, are required to attend, is to embrace a specified number of hours each day.

2. Opportunities are to be afforded to the Children of each School for receiving such religious instruction as their parents or guardians approve of.

3. The patrons of the several Schools have the right of appointing such religious instruction as they may think proper to be given therein, provided that each School be open to Children of all communions; that due regard be had to parental right and authority; that accordingly, no child be *compelled* to receive, or to be present at, any religious instruction to which his parents or guardians object; and that the time for giving it be so fixed, that no child shall be thereby, in effect, excluded, directly or indirectly, from the other advantages which the School affords. Subject to this, religious instruction may be given either during the fixed School-hours or otherwise.

The following explanation of the preceding Rule, and observations of the Commissioners, accompanied by the *new Order* issued by them in 1850, in reference to the 9th paragraph of section 2, are taken from their Sixteenth Report.

"We have recently issued an important Order, on the subject of religious instruction, to which we beg to draw your Excellency's attention. In our Report for the year 1847, we stated that our Secretaries having informed us that they had been frequently consulted, both personally and by letter, as to the true meaning of the following portion of section 2, paragraph 3, of the Rules of the Board with reference to religious instruction—'That due regard be had to parental right and

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

authority; that, accordingly, no child be compelled to receive, or be present at, any religious instruction to which his parents or guardians object:' and that they deemed it desirable that we should supply them with an authoritative answer to such questions, we directed them, by a minute bearing date 18th November, 1847, to give the following explanation in reply to all such inquiries in future:—

"'First—That the true interpretation of the words in question clearly is, that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object; and that this rule (in conjunction with the notification in the School-room of the arrangement for giving religious instruction as required by Rule 9, section 2) has hitherto been found amply sufficient for the full enforcement of parental authority.

"'Secondly—That though all that is required by this rule (section 2, paragraph 3) is, that the Patron should engage not to compel any child to be present at such religious instruction; yet, should the Patron use any means, either directly or indirectly, to induce any child to attend such religious instruction, contrary to the desire of his parents or guardians, the Commissioners would consider such conduct inconsistent with the whole spirit of their system.'"

It was with a view to guard against the possibility of such a case arising, that the Commissioners gave the following important explanation of their sentiments in their Eleventh Report, for the year 1844, dated the 24th day of April, 1845:—

"It would be found impossible to lay down in detail any set of rules so accommodated to all the varying circumstances of every locality, and so guarded against all possible mistakes and misrepresentations, as to be secure from being violated in spirit, without any tangible infringement of the letter of them. For example, under our present rules, the Patron of a National School may give religious instruction during even the fixed School-hours. A Patron, Protestant or Roman Catholic, might possibly, availing himself of the letter of this rule, make so unjust a use of this privilege as to drive from the School all children of a persuasion different from his own, or induce them, if they remained, to share in the religious instruction to which they and their parents were conscientiously opposed. In such a case we should immediately interpose, and cause the Patron to abandon a course so inconsistent with the whole spirit of our system; or, in case of his refusal, we should strike the School off our roll.

"The Order which we have deemed it right to make is as follows:—'That the following arrangement be adopted for carrying out more effectually the Rule as to the notification of the time for giving religious instructions, as set forth in the 9th paragraph of section 2 of the Rules and Regulations of the Commissioners:—

"'First—That the public notification of the time for religious instruction shall be inserted in large letters in the "Time Table" supplied by the Commissioners to all National Schools; and the Commissioners strongly recommend that, as far as may be practicable, the general nature of such religious instruction shall be also stated on the "Time Table."

"'Secondly—That the "Time Table" shall be kept constantly hung up in a conspicuous place in the School-room.

"'Thirdly—That, in order "that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object," the teacher shall immediately before the commencement of religious instruction, announce distinctly to the pupils, that the hour for religious instruction has arrived, and shall, at the same time, put and keep up, during the period allotted to such religious instruction, and within the view of all the pupils, a notification thereof,

containing the words "Religious Instruction," printed in large characters, on a form to be also supplied by the Commissioners.

"'Fourthly—That, when the secular instruction shall precede the religious instruction, in any National School, there shall be a sufficient interval between the announcement and the commencement of the religious instruction, and, whether the religious or the secular instruction shall have priority in any National School, the books used for the instruction first in order, shall be carefully laid aside at its termination, in the press or other place appropriated for keeping the school-books.'

"Although, so far as we are aware, no case has ever yet occurred in which proselytism has taken place, either on the Roman Catholic or Protestant side, in any National School, yet fears have been entertained that such attempts might be made during the time set apart for religious instruction. The arrangement we have now adopted will, we trust, go far to remove such fears, and cannot be objected to by any one who places his school under us, with the honest purpose of acting upon our leading principle. In founding our system, Lord Stanley announced, 'that even the suspicion of proselytism should be banished from it'—'that security would be afforded by it'—'that the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.' His language in this respect is in exact accordance with that employed in the Fourteenth Report of the 'Commissioners for inquiry into the state of all Schools on public or charitable foundations in Ireland.' In that Report, published in 1812, and signed by the Archbishops of Armagh and Cashel, by the Bishop of Killala, and by Provost Elrington, the Commissioners declare their hope that the scheme of National Education proposed by them will be cordially accepted by the people of Ireland. And they add these memorable words: 'That such will be its acceptance we shall indulge the more confident expectation, if all interference with the particular religious tenets of those who are to receive that instruction, shall, in the first instance, be unequivocally disclaimed, and effectually guarded against. We conceive this to be of essential importance in any new establishments for the education of the lower classes in Ireland: and we venture to express our unanimous opinion that no such plan, however wisely and unexceptionally contrived in other respects, can be carried into effectual execution in this country, unless it be explicitly avowed, and clearly understood, as its leading principle, that no attempt shall be made to influence or disturb the peculiar religious tenets of any sect or description of Christians.' No person who does not from his heart adopt the sentiments here expressed by the Commissioners, and which are embodied in Lord Stanley's Letter, can conscientiously avail himself of our grants; and no one who does adopt those sentiments can object to the Order which we have issued on this occasion."

4. In Schools, towards the building of which the Commissioners have contributed, and which are, therefore, VESTED in Trustees, for the purposes of National Education, or, which are vested in the Commissioners in their corporate capacity, such Pastors or other Persons as shall be approved of by the parents or guardians of the Children respectively, shall have access to them *in the School-room*, for the purpose of giving them religious instruction there, at convenient times to be appointed for that purpose, whether those pastors or persons shall have signed the original application or otherwise.

5. In Schools NOT VESTED, but which receive aid only by way of Salary and Books, it is for the Patrons to determine whether religious instruction shall be given *in the School-room* or not; but if they do not

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

allow it in the School-room, the Children whose parents or guardians so desire, must be allowed to absent themselves from the School, at reasonable times, for the purpose of receiving such instruction ELSEWHERE.

6. The reading of the Scriptures, either in the Protestant Authorized or Douay Version, as well as the teaching of Catechisms, comes within the rule as to religious instruction.

7. The rule as to religious instruction applies to Public Prayer and to all other religious exercises.

8. The Commissioners do not insist on the "Scripture Lessons" or book of "Sacred Poetry" being read in any of the National Schools, nor do they allow them to be read as part of the ordinary school business (during which all children, of whatever denomination they may be, are required to attend) in any school attended by children whose parents or guardians object to their being read by their children.

In such cases the Commissioners prohibit the use of these books, except at times set apart for the purpose, either before or after the ordinary school business, and under the following conditions :—

First—That no child, whose parent or guardian objects, shall be required directly or indirectly to be present at such reading.

Second—That in order that no child, whose parent or guardian objects, may be present at the reading of the books above specified, public notification of the time set apart for such reading shall be inserted in large letters in the time-table of the school—that there shall be a sufficient interval between the conclusion of the ordinary school business and the commencement of such reading ; and that the teacher shall immediately, before its commencement, announce distinctly to the pupils that any child whose parent or guardian so desires may then retire.

Third—That in every such case there shall be, exclusive of the time set apart for such reading, sufficient time devoted each day to the ordinary school business, in order that those children who do not join in the reading of the books may enjoy ample means of literary instruction in the school-room.

9. Whatever arrangement is made in any School for giving religious instruction, must be *publicly notified* in the School-room, in order that those Children, and those only, may be present whose parents or guardians allow them.*

10. If any other books than the Holy Scriptures, or the *standard* books of the Church to which the Children using them belong, are employed in communicating religious instruction, the title of each is to be made known to the Commissioners.

11. The use of the books published by the Commissioners is not compulsory ; but the titles of all other books which the Conductors of Schools intend for the ordinary School business, are to be reported to the Commissioners ; and none are to be used to which they object ; but they prohibit such only as may appear to them to contain matter objectionable in itself, or objectionable for *common* instruction, as peculiarly belonging to some particular religious denomination.

12. A Registry is to be kept in each School of the daily attendance of the Scholars, and the average attendance, according to the Form furnished by the Commissioners.

III.—*Miscellaneous.*

1. It is the earnest wish of Her Majesty's Government, and of the Commissioners, that the Clergy and Laity of the different religious de-

nominations in the country should co-operate with one another in conducting National Schools.

2. When any School is received by the Commissioners into connexion with them, the inscription, "NATIONAL SCHOOL," *and no other*, shall be put up conspicuously on the School-house; and when a School-house is built partly by aid from them, a stone is to be introduced into the wall having that inscription cut upon it.

This rule is not to be understood as precluding the addition to the terms "National School" of the description of children for whom the school is designed, as Male, Female, or Infant, or of the proper local designation of the city, town, parish, street, village, or townland, in which the school may be situated; but the Commissioners will not sanction the inscription of any title of a *denominational character*, or which may appear to them to indicate that the school is one peculiarly belonging to any particular religious body.

3. The Commissioners require that no use shall be made of the School-rooms for any purpose tending to contention, such as the HOLDING OF POLITICAL MEETINGS IN THEM, or bringing into them political petitions or documents of any kind for signature.

4. The Commissioners require that the National School-rooms shall not be converted into places of PUBLIC WORSHIP.

5. The Commissioners require the School-rooms to be used *exclusively for the purposes of Education;* and any breach of this Rule will be held to be a violation of the principles of the National Education System.

6. The Commissioners require that the principles of the following Lesson, or of a Lesson of a similar import, be strictly inculcated in all Schools admitted into connexion with the Board, and that a copy of the Lesson itself be hung up in each School.

Christians should endeavour, as the Apostle Paul commands them, to "live peaceably with all men" (Rom. ch. xii. v. 17), even with those of a different religious persuasion.

Our Saviour, Christ, commanded his disciples to "love one another." He taught them to love even their enemies, to bless those that cursed them, and to pray for those who persecuted them. He himself prayed for his murderers.

Many men hold erroneous doctrines, but we ought not to hate or persecute them. We ought to seek for the truth, and to hold fast what we are convinced is the truth; but not to treat harshly those who are in error. Jesus Christ did not intend his religion to be forced on men by violent means. He would not allow his disciples to fight for him.

If any persons treat us unkindly, we must not do the same to them; for Christ and his apostles have taught us not to return evil for evil. If we would obey Christ, we must do to others, not as they do to us, but as we would wish them to do to us.

Quarrelling with our neighbours and abusing them, is not the way to convince them that we are in the right, and they in the wrong. It is more likely to convince them that we have not a Christian spirit. We ought to show ourselves followers of Christ, who, "when he was reviled, reviled not again" (1 Pet. ch. ii. v. 23), by behaving gently and kindly to every one.

7. The Commissioners regard the attendance of any of their Teachers at meetings held for *political purposes*, or their taking part in elections for Members of Parliament, except by voting, as incompatible with the performance of their duties, and as a violation of rule which will render them liable to dismissal.

8. Should the Commissioners consider any Teacher employed in a School under the Board unfit for his office, or otherwise objectionable, they require that he be dismissed and another provided. Teachers are also liable to be fined or suspended, at all times, when the Commissioners shall deem it necessary, on sufficient cause being shown.

APPENDIX A.

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

9. The Commissioners by themselves, or their Officers, are to be allowed to visit and examine the Schools whenever they think fit. Those who visit on the part of the Commissioners are furnished with credentials under their Seal.

IV.—*Inspection of Schools.*

1. ADMISSION OF VISITORS.

1. The public generally must have free access to every National School during the hours devoted to secular instruction,—not to take part in the ordinary business, nor to interrupt it, but, as Visitors, to observe how it is conducted.

2. Every Teacher of a National School is to receive courteously Visitors of all denominations, to afford them free access to the School-room, and full liberty to observe what books are in the hands of the Children, or upon the desks; what tablets are hung upon the walls, and what is the method of teaching; but they are by no means required to permit any person to interrupt the business of the School, by asking questions of Children, examining classes, calling for papers of any kind, or in any other way diverting the attention of either Teachers or Scholars from their usual business.

3. Should any Visitors wish for information which they cannot obtain by such an inspection, it is the duty of the Teachers to refer them to the Patrons or Managers of the School for it.

4. Every Teacher is required to have his Visitors' or Daily Report Book lying upon his desk, that Visitors may, if they choose, enter remarks in it. Such remarks as may be made, the Teachers are by no means to alter or erase; and the Inspector of the district is required to transmit to the Commissioners copies of such remarks as he may deem of sufficient importance to be made known to them.

5. As the religious instruction of the Children is under the control of the Clergyman or Lay person, communicating it with the approbation of their parents, the Commissioners can give no liberty to any other Visitor, whether Clergyman or Layman, to interfere therewith.

2. INSPECTION BY THE COMMISSIONERS OR THEIR OFFICERS.

1. The Commissioners do not take the control or regulation of any School, except their own Model Schools, directly into their own hands, but leave all schools aided by them under the authority of the Local Conductors. The *Inspectors*, therefore, are not to give direct orders, as on the part of the Board, respecting any necessary regulations, but to point out such regulations to the conductors of the School, that *they* may give the requisite orders.

2. The Commissioners require that every National School be inspected by the *Inspector of the District*, at least three times in each year.

3. The *District Inspector* on each inspection is to communicate with the Patron or Correspondent, for the purpose of affording information concerning the general state of the School, and pointing out such violations of rule, or defects, if any, as he may have observed; and he is to make such suggestions as he may deem necessary.

4. He is to examine the Visitors' Book, or Daily Report Book, and to transmit to the Commissioners copies of any observations made therein which he may consider to be of importance.

5. He is not to make any observations in the Book except the date of his visit, the time occupied in the inspection of the School, showing

the precise time at which it commenced, and the precise time at which it terminated; and also the number of Scholars present.

6. Upon ordinary occasions, he is not to give any intimation of his intended visit; but during the middle term of the year, from 1st May to the 31st August, when the inspection is to be public, he is to make such previous arrangements with the Local Managers, as will facilitate the attendance of the parents of the Children, and other persons interested in the welfare of the Schools.

7. He is to report to the Commissioners the result of each visit, and to use every means to obtain accurate information as to the discipline, management, and methods of instruction pursued in the School.

8. He is to examine all the classes in succession, in their different branches of study, so as to enable him to ascertain the degree and efficiency of the instruction imparted.

9. He is to examine the Class Rolls, Register, and Daily Report Book; and to report with accuracy what is the actual number of Children receiving instruction at the School, and what is the daily average attendance.

10. He is to receive a monthly Report from the Teacher of each School, and also to make one quarterly himself to the Commissioners, in addition to his ordinary Report upon the School after each visit.

11. He is also to supply the Commissioners with such local information as they may from time to time require from him, and to act as their agent in all matters in which they may employ him; but he is not invested with authority to decide upon any question affecting a National School, or the general business of the Commissioners, without their direction.

12. When applications for aid are referred to the District Inspector, he is to communicate with the applicant so as to insure an interview, and also with the Clergymen of the different denominations, in the neighbourhood, with the view of ascertaining their sentiments on the case, and whether they have any, and what, objections thereto. He is also to communicate personally, if necessary, with any other individuals in the neighbourhood.

13. The District Inspector is to avoid all discussions of a religious or political nature; he is to exhibit a courteous and conciliatory demeanour towards all persons with whom he is to communicate, and to pursue such a line of conduct as will tend to uphold the just influence and authority both of Managers and Teachers.

V.—*As to Appointment, Salaries, Conduct of Teachers, &c.*

1. GENERAL RULES AS TO APPOINTMENT AND CLASSIFICATION OF TEACHERS.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority. The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

APPENDIX A.

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the Establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter an Agricultural Department is attached. They are to receive religious instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays they are required to attend their respective places of worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in Agriculture daily, and they attend on Saturdays at the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the Professors or by a Board of Inspectors shall be paid as Probationers, until they be examined at the first General or Special examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any Teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All Teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who, after their first examination, have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the

Inspectors, may be found wholly unqualified, shall be paid salary up to the close of the month in which the Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All Teachers must remain at least one year in a lower division of any class, before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of Training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the Teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective schools, their method of conducting them, and the daily average attendance of pupils will also be taken into consideration.

17. No Teacher will be admitted to examination with a view to promotion, on whose school a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted; that adequate exertions have been made to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting-out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must also appear from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

APPENDIX A.

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually*. No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him; the amount is regulated by the Class in which he may be placed.

2. SALARIES AND GRATUITIES TO TEACHERS AND PAID MONITORS.

1. The Commissioners grant salaries and gratuities to Teachers and to Paid Monitors of National Schools at the following rates, subject to the foregoing and annexed regulations:—

Ordinary National Schools.

2. The Commissioners require that a further income be secured to the Teacher, either by Local Subscription or School-fees, to such amount in each case as they may direct; and the Commissioners also require that the payments made by the Children shall not be diminished in consequence of any increase of Salary which may be awarded to the Teacher.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a year at least.

2. Masters of National Schools having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording agricultural instruction, will receive £5 per annum in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspectors.

Assistant Teachers.

Salary not to exceed £15 for males, and £13 for females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed; nor will they consider any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognised by the Board.

2. When applications for an Assistant are laid before the Commissioners they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses, unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

1. In Schools of this description, salary is paid according to a per centage on the daily average attendance:—

£20	per annum for	100	daily average,
£40	„	200	„
£60	„	300	„
£77	„	400	„
£94	„	500	„
£111	„	600	„

And for every 50 over 600 at the rate of £15 per cent.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

Paid Monitors.

SALARIES.

For the First Year,	£4
For the Second Year,	£5
For the Third Year,	£7
For the Fourth Year,	£8

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the

APPENDIX A.

I. Rules and Regulations of Commissioners, as published in Twentieth Report.

National Schools, and appointed upon the recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the Salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, candidates for the office of Paid Monitor must undergo a Public Examination by the Inspectors, in a prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

7. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

8. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant Teacher, or of Pupil-Teachers in District Model Schools.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners of National Education have resolved with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes:—

For Male Teachers,	First Class, .	. Twenty at £6 a-year each.
	Second Class,	. Twenty at £4 a-year each.
For Female Teachers,	First Class, .	. Twenty at £5 a-year each.
	Second Class,	. Twenty at £3 a-year each.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such Gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received one year's gratuity is not thereby *entitled* to a continuance of it.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10*s.* will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of	£4	£4
Two of	£3	£6
Five of	£1 10*s.*	£7 10*s.*
Five of	£1	£5

2. These Premiums will be awarded ANNUALLY on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premiums will be awarded without reference to the Class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VI. *Books.*

1. The Commissioners furnish gratuitously to each School a first Stock of School-Books, in proportion to the attendance of Children, which is renewed at the end of every three years. They are to be kept as a School Stock, for which the Master or Mistress is held responsible, and they are on no account to be taken out of the School. The Commissioners also supply Books from time to time for the general use of the Children, and School Requisites, such as Paper, Slates, Quills, &c., at reduced rates.

2. The funds of the Commissioners do not enable them to give a Free Stock sufficiently large for the entire wants of the School. Any additional books, and maps, stationery, slates, clocks, and other requisites, must be purchased at reduced rates.

3. The value of the grant is regulated by the daily average attendance, as ascertained from the reports of the Inspectors. The Managers of Schools have the privilege of selecting their grants of Free Stock from the *whole* list of books supplied by the Commissioners, and are at liberty to choose such of them as they most approve of, and to omit any to which they object.

4. When Books, &c., purchased from the Commissioners at the reduced price, are sold to the children attending a National School, it is directed that in no case shall any advance be made on these prices; and the District Inspectors have instructions to inquire into and report upon any infraction of this rule.

VII. *Building.*

1. Before any grant is made towards Building a School-house, the Commissioners are to be satisfied that a necessity exists for such a School, that an eligible site has been procured, that a satisfactory Lease of the site will be executed to the Commissioners in their Corporate capacity; and that the applicant parties are prepared to raise, by local contribution, at least one-third of the whole sum which the Commissioners deem necessary for the erection of the House, providing Furniture, &c.

2. If the proposed site be for a School in a rural District, and be within three statute miles of a School-house, towards the erection of which the Commissioners have contributed aid, no grant can be made.

3. Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore require that, before Church, Chapel, or Meeting-house ground be selected as the

APPENDIX A.

I. Rules and Regulations of Commissioners, as published in Twentieth Report. .

site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

4. The School premises must be vested in the Commissioners, at a nominal rent, and for such term, under the circumstances, as they may deem necessary.

5. The Commissioners will keep in repair the School-house and Furniture, where the premises are vested in them in their Corporate capacity.

6. When Grants are voted towards the Building, &c., of a School-house, the conveyance must be duly executed *before the works are commenced.*

7. No Grant can be made until the District Inspector shall have reported upon all the circumstances of the case.

8. The Commissioners determine from the information afforded them the dimensions of the proposed Building.

9. The Commissioners cannot, in any case, pay more than two-thirds of the sum which they may deem necessary for the erection of the School-house (including Furniture, &c.); and they invariably require that the remaining one-third, at least, shall be locally provided for.

10. The cost of the House, &c., is determined by the number of Children which it is intended to accommodate, allowing an area of six square feet for each child.

Example.—A School-house capable of accommodating one hundred Children should contain not less than an area of six hundred square feet, and should be ten feet high to the wall-plate.

11. The Commissioners furnish instructions as to the Plan and Specification, to which the parties receiving aid are bound strictly to adhere.

12. The Commissioners do not contribute to the ornamenting of School-houses, but merely to such expenditure as may be necessary for having the Children accommodated in plain, substantial buildings. If buildings of another description be preferred, the whole of the extra expense must be provided by the applicants.

13. The Commissioners do not contribute towards the expense of erecting Residences for the Teachers, except in the case of a District Model School.

14. The House, Furniture, &c., must be completed, the Teacher or Teachers appointed, and the School in operation, before the Grants can be paid.

15. The whole of the works must be completed within twelve months from the date of the execution of the Lease (unless by special permission), or the Grants will be forfeited.

16. The Commissioners do not make advances or instalments of their Grants.

17. Previous to the payment of the Grants, a Certificate, according to a Form furnished, must be forwarded to the Commissioners, stating that the School-house, Furniture, &c., have been completed in a satisfactory and workmanlike manner, and built according to the dimensions and directions set forth in the Plan and Specification. This Certificate to be signed by the Manager and by the Contractor. The work to be approved of by the Clerk of Works, or by any other person authorized by the Commissioners or the Government to examine it; and if a question arise as to the expenditure incurred, the accounts must be submitted to any audit which may be deemed necessary.

18. The Commissioners do not make Grants to purchase School-houses, nor to purchase, alter, or furnish other Houses, for the purpose of being converted into School-houses.

And further, that the Public of all denominations, whether Clergy or Laity, shall have access to each and every such School, in the manner and under the restrictions particularly set forth in the Rules and Regulations of the said Commissioners, under the Head and Title of "Inspection of Schools," to observe how such School may be conducted. And that no Meetings of any kind whatever be summoned, held, or convened, or permitted so to be in any such School-house, or in any part or room thereof, or on the premises hereby conveyed or intended so to be, save such as may relate exclusively to the business thereof; and that no Petition or Document of any kind whatsoever, save such as may relate exclusively to the business of the said School, be brought or carried into any such School-house or premises, or any part thereof, for signature or otherwise; and that such School-house and Premises, or any part thereof, shall not be converted into a place of Public Worship, or used for any purpose save that of such School; and that from and after the day of the date of these Presents, every such School-house shall be kept in full and sufficient repair by the said Commissioners, and that Local Contributions shall be raised towards payment of the Teacher's Salary of such School, after the manner set forth in the Rules and Regulations of the said Commissioners. PROVIDED ALWAYS, and it is hereby further expressed and declared to be the true intent and meaning of these Presents, and of the several Parties hereto, that in case any of them the said and or any Patron hereafter to be appointed, shall die or be desirous of being discharged from the management of said School, or shall go or reside out of Ireland, or shall neglect or refuse, or become incapable to act as such Patron, it shall and may be lawful to and for the surviving or continuing Patron or Patrons, to nominate and appoint a new Patron or Patrons in the room of any such Patron or Patrons, such new Patron or Patrons to be first approved of by the said Commissioners; and in case such surviving or continuing Patron or Patrons shall decline, neglect, or refuse to exercise the powers of appointment hereby given as aforesaid, within six calendar months after all or any of the events hereinbefore

mentioned shall arise, happen, or take place ; that then, and in all or any of such case or cases, it shall and may be lawful to and for the said Commissioners to nominate and appoint such new Patron or Patrons in the room of any such Patron or Patrons as aforesaid, for the management of said School. And the said hereby for and Heirs, Executors, Administrators, and Assigns, covenant and agree to and with the said Commissioners, that he and they, their and his Heirs, Executors, Administrators, and Assigns, shall and will, from time to time, and at all times hereafter, upon the request of the said Commissioners, and at own proper cost and charges, do, perform, and execute all and every such further and other act and acts, deed and deeds, assignment, conveyance, release, and assurance in the law whatsoever, for corroborating and confirming these Presents as by the said Commissioners or their Counsel learned in the law, shall, in that behalf, be reasonably advised, devised, required, demanded, or directed. And the said Covenant with the said Commissioners of National Education in Ireland, that the said Commissioners, paying the said Rent, if demanded, shall and may peaceably and quietly possess and enjoy the said Premises for the said term, without any disturbance from the said Heirs, Executors, Administrators, and Assigns. IN WITNESS whereof the said hereunto put hand and seal , and the said Commissioners have caused their Corporate Seal to be affixed hereto, the Day and Year first above written.

VIII. *Aids to Schools previously established.*

1.

1. The aid granted to Schools previously established is limited to Salary and Books.

2. Before such aid can be granted, the Commissioners must be satisfied that the case is deserving of assistance ; that there is reason to expect that the School will be efficiently and permanently supported ; that some local provision will be made in aid of the Teacher's Salary, either by School-fees or otherwise ; that the School-house is in good repair and provided with a sufficient quantity of suitable Furniture ; that a competent Teacher has been appointed ; that the School is in operation ; and that there is a *sufficient* daily average attendance of Children.

3. Before the Commissioners consider any application for aid, they require, from the Inspector of the District, a report upon all the circumstances of the case.

4. To entitle a School to a continuance of aid, the House and Furniture must be kept in sufficient repair, by means of local contributions ; the School conducted in all respects, in a satisfactory manner, and in accordance with the regulations of the Commissioners ; and it must appear from the Register of the School, that there is a sufficient daily average attendance of Pupils.

The Commissioners have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

For Scale of Gratuities and the conditions under which they are awarded see section V.

Such Schools are received into connexion, upon the same general principles as the Workhouse Schools, and grants of Books are made thereto.

IX.

1. As Applications for aid have frequently been made in respect of expenses incurred previously to any communication with the Commissioners, they desire to be distinctly understood, that they will not hold themselves bound to grant assistance in any case, unless application shall have been made to them in the first instance, unless such application shall have been approved of, and unless they shall have funds at their disposal when they come to decide upon the case, to enable them to grant the required aid. Applicants are therefore recommended not to incur any expense towards the payment of which they expect the Commissioners to contribute, until the decision of the Board shall have been communicated to them.

2. Applicants for assistance are not to understand that the Commissioners are bound to grant the full amount of aid, as set forth in the foregoing Regulations, in every case; nor can they grant any unless they have sufficient funds for the purpose, which depends upon the amount placed at their disposal by Parliament.

3. Persons desirous of obtaining assistance from the Commissioners of National Education, under any of the foregoing heads, will, upon intimating to the Secretaries the nature of the aid required, be furnished with the Forms, upon which their application must be laid before the Commissioners.

4. All communications in reference to National Schools should be made by the Manager or Correspondent. The Commissioners do not correspond with Teachers.

5. All letters should be directed as under. No communications are

received which are not prepaid, except those containing Documents sent from this office, and which are required to be returned.

NOS. 1, 2, 3.—LORD STANLEY'S LETTERS on the FORMATION of the NATIONAL BOARD, and EXPLANATORY DOCUMENT as to conditions contained therein.

II. Lord Stanley's Letters.

No. 1. ORIGINAL DRAFT of LETTER of the Right Hon. E. G. STANLEY, Chief Secretary to his Excellency the Lord Lieutenant, addressed to his Grace the DUKE of LEINSTER, on the formation of the BOARD of COMMISSIONERS for EDUCATION in IRELAND.

Irish Office, London, October, 1831.

MY LORD,—His Majesty's Government having come to the determination of empowering the Lord Lieutenant to constitute a Board for the superintendence of a system of National Education in Ireland, and Parliament having so far sanctioned the arrangement, as to appropriate a sum of money in the present year, as an experiment of the probable success of the proposed system, I am directed by his Excellency to acquaint your Grace, that it is his intention, with your consent, to constitute you the President of the new Board. And I have it further in command to lay before your Grace the motives of the Government in constituting this Board, the powers which it is intended to confer upon it, and the objects which it is expected that it will bear in view, and carry into effect.

The Commissioners, in 1812, recommended the appointment of a Board of this description, to superintend a system of education from which should be banished even the suspicion of proselytism, and which, admitting children of all religious persuasions, should not interfere with the peculiar tenets of any. The Government of the day imagined that they had found a superintending body, acting upon a system such as was recommended, and intrusted the distribution of the National Grants to the care of the Kildare-street Society. His Majesty's present Government are of opinion, that no private society, deriving a part, however small, of their annual income from private sources, and only made the channel of the munificence of the Legislature, without being subject to any direct responsibility, could adequately and satisfactorily accomplish the end proposed; and while they do

full justice to the liberal views with which that Society was originally instituted, as well as to the fairness with which they have, in most instances, endeavoured to carry their views into effect, they cannot but be sensible that one of the leading principles of that Society was calculated to defeat its avowed objects, as experience has subsequently proved that it has. The determination to enforce in all their schools the reading of the Holy Scriptures without note or comment, was undoubtedly taken with the purest motives; with the wish at once to connect religious with moral and literary education, and, at the same time, not to run the risk of wounding the peculiar feelings of any sect, by catechetical instruction, or comments which might tend to subjects of polemical controversy. But it seems to have been overlooked, that the principles of the Roman Catholic Church (to which, in any system intended for general diffusion throughout Ireland, the bulk of the pupils must necessarily belong) were totally at variance with this principle: and that the reading of the Holy Scriptures without note or comment, by children, must be peculiarly obnoxious to a Church which denies, even to adults, the right of unaided private interpretation of the Sacred Volume in articles of religious belief.

Shortly after its institution, although the Society prospered and extended its operations under the fostering care of the Legislature, this vital defect began to be noticed, and the Roman Catholic Clergy began to exert themselves with energy and success, against a system to which they were in principle opposed, and which they feared might lead in its results to proselytism, even although no such object were contemplated by its promoters. When this opposition arose, founded on such grounds, it soon became manifest that the system could not become one of National Education.

The Commissioners of Education, in 1824–'25, sensible of the defects of the system, and of the ground, as well as the strength of the objection taken, recommended the appointment of two Teachers in every school, one Protestant and the other Roman Catholic, to superintend separately the religious education of the children; and they hoped to have been able to agree upon a selection from the Scriptures which might have been generally acquiesced in by both persuasions. But it was soon found that these schemes were impracticable; and in 1828, a Committee of the House of Commons, to which were referred the various Reports of the Commissioners of Education, recommended a system to be adopted which should afford, if possible, a combined literary, and a separate religious education, and should be capable of being so far adapted to the views of the religious persuasions which divide Ireland, as to render it, in truth, a system of National Education for the lower classes of the community.

For the success of the undertaking, much must depend upon the character of the individuals who compose the Board; and upon the security thereby afforded to the country, that while the interests of religion are not overlooked, the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.

To attain the first object, it appears essential that a portion of the Board should be composed of men of high personal character, and of exalted station in the church; for the latter, that it should consist in part of persons professing different opinions.

It is the intention of the Government, that the Board should exercise a complete control over the various schools which may be erected under its auspices, or which, having been already established, may hereafter place themselves under its management, and submit to its

regulations. Subject to these, applications for aid will be admissible from Christians of all denominations; but as one of the main objects must be to unite in one system children of different creeds, and as much must depend upon the co-operation of the resident clergy, the Board will probably look with peculiar favour upon applications proceeding either from—

1st. The Protestant and Roman Catholic Clergy of the Parish; or,

2nd. One of the Clergymen, and a certain number of Parishioners, professing the opposite creed; or,

3rd. Parishioners of both denominations.

Where the application proceeds exclusively from Protestants, or exclusively from Roman Catholics, it will be proper for the Board to make inquiry as to the circumstances which lead to the absence of any names of the persuasion which does not appear.

The Board will note all applications for aid, whether granted or refused, with the grounds of the decision, and annually submit to Parliament a Report of their proceedings.

They will invariably require, as a condition not to be departed from, that local funds shall be raised, upon which any aid from the public will be dependent.

They will refuse all applications in which the following objects are not locally provided for:—

1st. A fund sufficient for the annual repairs of the school-house and furniture.

2nd. A permanent salary for the Master, not less than pounds.

3rd. A sum sufficient to purchase books and school requisites at half-price, and books of separate religious instruction at prime cost.

4th. Where aid is required from the Commissioners for building a school-house, it is required that at least one-third of the estimated expense be subscribed, a site for building, to be approved of by the Commissioners, be granted to them, and the school-house, when finished, to be vested in them.

They will require that the schools be kept open for a certain number of hours, on four or five days of the week, at the discretion of the Commissioners, for moral and literary education only; and that the remaining one or two days in the week be set apart for giving, separately, such religious education to the children as may be approved of by the Clergy of their respective persuasions.

They will also permit and encourage the Clergy to give religious instruction to the children of their respective persuasions, either before or after the ordinary school hours on the other days of the week.

They will exercise the most entire control over all books to be used in the schools, whether in the combined literary, or separate religious instruction; none to be employed in the first, except under the sanction of the Board, nor in the latter, but with the approbation of the members of the Board of the persuasion of those for whom they are intended.

They will require that a Register shall be kept in the schools, in which shall be entered the attendance or non-attendance of each child on Divine worship on Sundays.

They will, at various times, either by themselves, or by their Inspectors, visit and examine into the state of each school, and report their observations to the Board.

They will allow to the individuals or bodies applying for aid, the

appointment of their own Teacher, subject to the following restrictions and regulations :—

1st. He (or she) shall be liable to be fined, suspended, or removed altogether, by the authority of the Commissioners, who shall, however, record their reasons.

2nd. He shall have received previous instruction in a Model School to be established in Dublin.

N.B.—It is not intended that this regulation should apply to prevent the admission of masters or mistresses of schools already established, who may be approved of by the Commissioners, nor of such as the Board may think fit to appoint, before the proposed Model School may come into full operation.

3rd. He shall have received testimonials of good conduct and of general fitness for the situation, from the Board, or the persons employed by them to conduct the Model School.

The Board will be intrusted with the absolute control over the funds which may be annually voted by Parliament, which they shall apply to the following purposes :—

1st. Granting aid for the erection of schools, subject to the conditions hereinbefore specified.

2nd. Paying Inspectors for visiting and reporting upon schools.

3rd. Gratuities to Teachers of schools conducted under the Rules laid down, not exceeding pounds each.

4th. Establishing and maintaining a Model School in Dublin, and training Teachers for country schools.

5th. Editing and printing such books of moral and literary education as may be approved of for the use of the schools, and supplying them and school necessaries, at not lower than half-price.

I have thus stated the objects which His Majesty's Government have in view, and the principal regulations by which they think those objects may be most effectually promoted ; and I am directed by the Lord Lieutenant to express His Excellency's earnest wish that the one and the other may be found such as to procure for the Board the sanction of your Grace's name, and the benefit of your Grace's attendance.

A full power will, of course, be given to the Board to make such regulations, upon matters of detail, not inconsistent with the spirit of these Instructions, as they may judge best qualified to carry into effect the intentions of the Government and of the Legislature. Parliament has already placed at his Excellency's disposal a sum which may be available even in the course of the present year; and as soon as the Board can be formed, it will be highly desirable that no time should be lost, with a view to the estimates of the ensuing year, in enabling such schools, already established, as are willing to subscribe to the conditions imposed, to put in their claims for protection and assistance; and in receiving applications from parties desirous to avail themselves of the munificence of the Legislature, in founding new schools under your regulations.

I have the honour to be, my Lord,

Your Grace's most obedient servant,

E. G. STANLEY.

To His Grace the Duke of Leinster, &c. &c.

No. 2. Copy of Amended Letter from the Chief Secretary for Ireland, to His Grace the Duke of Leinster, on the formation of a Board of Commissioners for Education in Ireland.

Irish Office, London, October, 1831.

My Lord,—His Majesty's Government having come to the determination of empowering the Lord Lieutenant to constitute a Board for the superintendence of a system of National Education in Ireland, and Parliament having so far sanctioned the arrangement, as to appropriate a sum of money in the present year, as an experiment of the probable success of the proposed system, I am directed by His Excellency to acquaint your Grace, that it his intention, with your consent, to constitute you the President of the new Board. And I have it further in command to lay before your Grace the motives of the Government in constituting this Board, the powers which it is intended to confer upon it, and the objects which it is expected that it will bear in view, and carry into effect.

The Commissioners, in 1812, recommended the appointment of a Board of this description, to superintend a system of education from which should be banished even the suspicion of proselytism, and which, admitting children of all religious persuasions, should not interfere with the peculiar tenets of any. The Government of the day imagined that they had found a superintending body, acting upon a system such as was recommended, and intrusted the distribution of the National Grants to the care of the Kildare-street Society. His Majesty's present Government are of opinion that no private society, deriving a part, however small, of their annual income from private sources, and only made the channel of the munificence of the Legislature, without being subject to any direct responsibility, could adequately and satisfactorily accomplish the end proposed; and while they do full justice to the liberal views with which that Society was originally instituted, they cannot but be sensible that one of its leading principles was calculated to defeat its avowed objects, as experience has subsequently proved that it has. The determination to enforce, in all their schools, the reading of the Holy Scriptures without note or comment, was undoubtedly taken with the purest motives; with the wish at once to connect religious with moral and literary education, and at the same time, not to run the risk of wounding the peculiar feelings of any sect, by catechetical instruction, or comments which might tend to subjects of polemical controversy. When this opposition arose, founded on such

grounds, it soon became manifest that the system could not become one of National Education.

The Commissioners of Education, in 1824–'25, sensible of the defects of the system, and of the ground, as well as the strength of the objection taken, recommended the appointment of two Teachers in every school, one Protestant and the other Roman Catholic, to superintend separately the religious education of the children; and they hoped to have been able to agree upon a selection from the Scriptures which might have been generally acquiesced in by both persuasions. Although it is not designed to exclude from the list of books for the combined instruction, such portions of Sacred History, or of religious or moral teaching, as may be approved of by the Board, it is to be understood that this is by no means intended to convey a perfect and sufficient religious education, or to supersede the necessity of separate religious instruction on the day set apart for that purpose.

They will require that a Register shall be kept in the schools, in which shall be entered the attendance or non-attendance of each child on Divine worship on Sundays.

They will, at various times, either by themselves or by their Inspectors, visit and examine into the state of each school, and report their observations to the Board.

They will allow to the individuals or bodies applying for aid, the appointment of their own Teacher, subject to the following restrictions and regulations:—

1st. He (or she) shall be liable to be fined, suspended, or removed altogether, by the authority of the Commissioners, who shall, however, record their reasons.

N.B.—It is not intended that this regulation should apply to prevent the admission of masters or mistresses of schools already established, who may be approved of by the Commissioners.

3rd. He shall have received testimonials of good conduct, and of general fitness for the situation, from the Board.

The Board will be intrusted with the absolute control over the funds

which may be annually voted by Parliament, which they shall apply to the following purposes:—

5th. Editing and printing such books of moral and literary education as may be approved of for the use of the schools, and supplying them and school necessaries, at not lower than half-price.

6th. Defraying all necessary contingent expenses of the Board.

I have thus stated the objects which His Majesty's Government have in view, and the principal regulations by which they think those objects may be most effectually promoted. And I am directed by the Lord Lieutenant to express His Excellency's earnest wish that the one and the other may be found such as to procure for the Board the sanction of your Grace's name, and the benefit of your Grace's attendance.

(Signed) E. G. Stanley.

No. 3. The following Document, explanatory of some of the foregoing Conditions, which have been misunderstood, having been drawn up by the Commissioners, as containing their views of them, has received the approbation and sanction of His Majesty's Government.

As some parts of the plan of Education committed to the Commissioners, to be by them carried into effect, have, as it appears, been misunderstood, the Commissioners beg to submit to Government, the sense in which they have understood and acted upon the instructions given in the letter of the Chief Secretary for Ireland, that the Government may confirm them in their mode of procedure where they are right, and correct them where they are wrong.

I. In giving a control to individual members of the Board, over books to be used in the particular religious instruction of different denominations of pupils, the Board do not understand that it was the intention of His Majesty's Government either to claim for themselves, or to vest in the Commissioners, any control over the use of the Sacred Scriptures, or over the standards of the Established Churches of Ireland, or of Scotland, or of the Roman Catholic Church, but only over books composed by private authors; and that the control over these is required merely for the purpose of checking the introduction of books of injurious tendency.

II. The Board do not understand that it is imperative upon them to edit all books used in the schools receiving grants from them; but that they are at liberty to sanction such books as may previously be in use in schools, in behalf of which applications are made; or such as may be preferred by the local Patrons and Conductors of schools, provided that they find nothing objectionable in them. Under this view of the duty assigned to them, they require a list of the books used in the schools which they are requested to aid, and have already frequently sanctioned the school-books issued by the Kildare-place Society—and also, after certain alterations, the school-books issued by the Catholic Book Society. The Board wish to remark, that they have never conceived it would be expedient to render the use of any particular book or books imperative.

III. The Board understand that the control over Teachers of schools is vested primarily in their local Patrons and Conductors; and that the power required by the Government to be conceded to the Board, of fining and dismissing Teachers, is to be exercised only in case of such local Patrons and Conductors, after receiving grants, seeking to protect Teachers in violating the rules of the Board; or retaining Teachers, found, on trial, to be incompetent.

IV. The Board understand that they are to require a permanent submission to its regulations, only in those cases in which grants have been made towards the erection of school-houses, to be vested in trustees, according to the directions of Government; and that in schools receiving occasional or annual grants, such as salaries for the Teachers, &c., they are to require submission to their regulations only during the period for which grants are made.

V. By encouraging the Pastors of different denominations to give religious instruction to the children of their respective flocks, out of school hours, the Board understand, merely affording to such Pastors facility of access to the pupils at the time specified, and not employing or remunerating them. And they understand that the parents and guardians of the children are to determine to what denomination they respectively belong—the Board taking no cognizance of the matter.

VI. The Board understand that the times for religious instruction are to be determined by the local Patrons and Conductors of schools; the power vested in the Board on that subject being merely to see that, at least, one week-day in the week is set apart for that purpose; they also understand, that the religious instruction given may, or may not, be in the school-room; the choice of the place being left to the Pastors of the children, but that liberty is to be secured to them to assemble the children of their respective flocks in the school-room, if they see fit.

Appendix A.

II. Lord Stanley's Letters.

VII. The Board understand that they are not, in ordinary cases, to exercise control over the use of the school-rooms on Sundays, that control being left to the local Conductors of the school; but that if any use be made of them, tending to contention and well-founded complaints between adverse parties, it is competent for the Board to interfere for the purpose of remedying the evil.

The Board beg leave to add, that they do not regard these observations as altering, or modifying, in any degree, the original instructions communicated to them in the Chief Secretary's Letter, of October, 1831; they offer them as containing views which they have always entertained of their instructions, and upon which they have uniformly acted since the commencement of their labours.

By desire of the Commissioners,

Thomas F. Kelly, *Secretary.*

No. 10. INSTRUCTIONS for making Applications for Salary and Books.

Education Office.

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the establishment of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is desirable all applications should contain:

1. The Name of the School.—2. The situation as to County, Parish, Townland, and Barony.—3. Name of the nearest Post Town, and in which direction.—4. Description and condition of the House.—5. Number of School-rooms and dimensions of each.—6. Condition, description, and quantity of Furniture.—7. Names and Ages of Teacher or Teachers.—8. Average daily attendance of Children, Males and Females.—9. The School hours.—10. Arrangement, and time for Religious Instruction.—11. The Books used, (if those of the National Board, which of them.)—12. Arrangement for admission of Visitors.—13. The Management of the School; if under an individual, his name and address; if under a Committee, by whom elected.—14. Name and address of Correspondent. *All applications must be signed by the parties making them; and it is particularly requested that their religious denomination (distinguishing the Clergy from the laity) may be stated.*

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any form of application from which you are not to deviate—they propose them merely for your assistance; and you will please to bear in mind, that it is most desirable the rules by which the School is governed should be distinctly set forth, in order that the Commissioners may be enabled to come to a just decision upon the merits of your application.

In order that you may be fully aware what extent of aid the Commissioners can give, we are to inform you, that, in consequence of the increased demands upon their funds for payment of Teachers' salaries, the Commissioners have been compelled to limit their grants to *Salaries and Books*, except where they may see fit to grant aid for the building of School-houses, in which case the Premises must be vested in them in their Corporate capacity.

The Commissioners do not make grants for the repairs of School-houses, and their grants for Furniture are confined exclusively to *vested* Schools; your application therefore, will not be favourably entertained unless the *School-house be in good repair, and provided with a sufficient quantity of suitable Furniture; a competent Teacher or Teachers must be appointed, and the School be in operation, before the application can be*

APPENDIX A. V. Official Forms.

considered. You must also be prepared to show from a record kept in the School what has been the AVERAGE ATTENDANCE OF SCHOLARS.

Should your application be granted, the Salary will be rated according to the annexed statement of the regulations adopted by the Commissioners for the classification and remuneration of Teachers.

A supply of National School Books, proportioned to the number of Children in attendance, will be granted. The Funds of the Commissioners will not enable them to give a Free Stock sufficiently large for the entire wants of the School. It will consist chiefly of Books and Lessons suited to the junior classes, viz. :—Spelling and Reading Tablets, First, Second, and Third Books, Grammars, Arithmetics, Copy Lines, and Arithmetical Tablets, also a Register and Report Book. The more advanced Lesson Books, Maps, Slates, Pencils, and Stationery, *which you are expected to purchase,* can only be granted on payment of the reduced prices.

You will also observe, that the Aid will not be *continued* unless you keep the School-house and Furniture in a proper state of repair, the Commissioners being prevented, by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses except those that are vested in themselves.

As soon as you forward your application to us, *in duplicate,* upon the blank sheets herewith sent, we shall direct the District Inspector to appoint a convenient time to wait upon you for the purpose of inquiring into all the circumstances of the case, and procuring such further information as the Commissioners may require.

In conclusion, we are to inform you, that it is the rule of the Commissioners to consider each application in the order of the date at which it is received in this Office.

We are, Sir,

Your obedient Servants,

MAURICE CROSS, JAMES KELLY, } Secretaries.

No. 11. INSTRUCTIONS for making Application for Aid towards Building National School-houses.

Education Office.

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the building of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is necessary all applications should contain :

1. The Name by which the proposed School is to be designated.—2. The situation of the proposed site, as to County, Parish, Townland, and Barony.—3. Name and profession of the person making a Lease of the site, under what title he makes the Lease.—4. The length of Tenure.—5. The Rent (if any).—6. The expected attendance of Children, Male and Female—Whether one or two School-rooms will be required.—7. Name and address of Correspondent.

All applications must be signed by the parties making them ; and it is

particularly requested that their religious denominations (distinguishing the Clergy from the Laity) may be stated.

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any *form of application* from which you are not to deviate—they propose them merely for your assistance, and to facilitate the Inspector of the District in making the necessary inquiries.

As soon as you forward to us your application, *in duplicate*, upon the blank sheets herewith sent, we shall direct the Inspector of the District to appoint a convenient time to wait upon you for the purpose of inquring into all the circumstances of the case, and procuring such further information as the Commissioners may require; upon the receipt of his report, the application will be considered in the order of its date.

We beg to state, for your further information, that where the Commissioners make a grant for the erection of a School-house, they will require the premises to be vested in them in their Corporate capacity, for the purpose of National Education, before the works are commenced; and no grant will be made unless a satisfactory Lease for sixty years, or longer, can be given, or for at least three lives, or thirty-one years.

Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore expect that, before Church, Chapel, or Meeting-house ground be adopted as the site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

The cost of the house, including privies, is determined by the number of Children which it is intended to accommodate, allowing six square feet per Child. The Commissioners consider a sum not exceeding £1 for each, to be sufficient for the purpose, of which they will contribute two-thirds; the remaining one-third must be locally raised: for example, a School-house capable of accommodating one hundred Children should contain an area of six hundred square feet. The expense of erecting such a building, including privies, should not exceed £100. Of this sum, the proportion granted by the Commissioners is £66 13*s.* 4*d.*, being the two-thirds.

The quantity of Furniture is also determined by the number of Children, and one-third of the whole cost must, in like manner, be locally raised.

Where a Grant is made for building a School-house, the applicants are bound to a strict observance of the Rules of the Board, a copy of which is transmitted herewith.

We are also to acquaint you, that the Commissioners, being desirous of complying with the increasing claims made upon them for assistance, will have no objection to entertain applications for *Salary and Books*, wherever *temporary* Schools can be established, until the new Building, should a Grant be made for the purpose, can be opened for the reception of the Pupils.

Should you consider it desirable to avail yourself of such assistance, you are requested to intimate it to us without loss of time, in order that the necessary forms of application may be forwarded to you.

The conditions upon which Salary and Books will be awarded are these:—That the School-house be in good repair; that it be provided with suitable Furniture; that a competent Teacher or Teachers be

appointed, and the School in operation attended by a sufficient number of Children.

You are requested to observe that the Commissioners are prevented by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses, except those that are vested in themselves.

We are desired to state for your further information, that the rule of the Commissioners is to restrict their aid EXCLUSIVELY TO SALARY AND BOOKS, except to Schools towards the erection of which they may consider it proper to contribute, and which, as already stated, must be vested in them for the purposes of National Education.

We are, Sir,

Your obedient Servants,

MAURICE CROSS,
JAMES KELLY, } Secretaries.

1. TWELVE PRACTICAL RULES for the TEACHERS of NATIONAL SCHOOLS.

1. The Teachers of National Schools are required—To keep at least one copy of the GENERAL LESSON suspended conspicuously in the School-room, and to inculcate the principles contained in it on the minds of their Pupils.

2. To exclude from the School, except at the hours set apart for Religious Instruction, all Catechisms and Books inculcating peculiar religious opinions.

3. To avoid fairs, markets, and meetings—but above all, POLITICAL meetings of every kind; to abstain from controversy; and to do nothing either in or out of School which might have a tendency to confine it to any one denomination of Children.

4. To keep the Register, Report Book, and Class Rolls accurately, neatly, and according to the precise form prescribed by the Board; and to enter or mark in the two latter, before *noon* each day, the number of Children in actual attendance.

5. To classify the Children according to the National School Books; to study those Books themselves; and to teach according to the improved method, as pointed out in their several prefaces.

6. To observe themselves, and to impress upon the minds of their Pupils, the great rule of regularity and order—A TIME AND PLACE FOR EVERY THING, AND EVERY THING IN ITS PROPER TIME AND PLACE.

7. To promote, both by precept and example, CLEANLINESS, NEATNESS, and DECENCY. To effect this the Teachers should set an example of cleanliness and neatness in their own person, and in the state and general appearance of their Schools. They should also satisfy themselves, by personal inspection every morning, that the Children have had their hands and faces washed, their hair combed, and clothes cleaned, and, when necessary, mended. The School apartments, too, should be swept and dusted every *evening*, and whitewashed at least once a year.

8. To pay the strictest attention to the morals and general conduct of their Pupils and to omit no opportunity of inculcating the principles of TRUTH and HONESTY: the duties of respect to superiors and obedience to all persons placed in authority over them.

9. To evince a regard for the improvement and general welfare of

their Pupils, to treat them with kindness, combined with firmness, and to aim at governing them by their affections and reason, rather than by harshness and severity.

10. To cultivate kindly and affectionate feelings among their Pupils; to discountenance quarrelling, cruelty to animals, and every approach to vice.

11. To record in the Report Book of the School the weekly receipts of School fees, and the amount of all grants made by the Board, as well as the purposes for which they were made, whether in the way of Premiums, Salaries to Teachers, payments to Monitors, or Workmistresses, also School requisites, whether Free Stock or purchased at half-price.

12. To take strict care of the Free Stock of Books granted by the Board; and to endeavour to keep the School constantly supplied with National School Books and requisites for sale to the Children, at the reduced prices charged by the Commissioners; also to preserve the invoices for the information of the Inspectors; and whenever requisites (whether Free Stock or purchased) arrive without an invoice, to apply to the manager to whom it is transmitted when the parcel is sent from this office.

VII.

General Rules and Regulations as to the Appointment, Examination, and Classification of Teachers and Monitors, &c., &c.

1. Appointment and Classification of Teachers.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority. The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment must produce a Certificate of good Character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter an Agricul-

tural Department is attached. They are to receive Religious Instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays they are required to attend their respective places of Worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in Agriculture daily, and they attend on Saturdays on the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of Training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the Professors or by a Board of Inspectors, shall be paid as Probationers, until they be examined at the first General or Special Examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who after their first examination have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the Inspectors, may be found wholy unqualified, shall be paid salary up to the close of the month in which Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All teachers must remain at least one year in a lower division of any class before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments

may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers, who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers, recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the Teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective Schools, their method of conducting them, and the daily average attendance of pupils, will also be taken into consideration.

17. No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted: that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must appear from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each Class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually*. No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him; the amount is regulated by the Class in which he may be placed.

Candidates for promotion must be prepared for examination in any of the subjects prescribed for the Class or Classes below that to which they desire to be raised.

General Conditions.

The minimum of proficiency required of the Teachers of each Class is stated in the preceding programme.

All Teachers must remain at least one year in a lower division of any Class, before they are eligible for promotion to a higher division of the same; and they must remain two years in a lower Class before they are eligible for promotion to a higher Class.

This regulation does not apply to Probationary Teachers, nor to Teachers who may be promoted on the recommendation of the Professors at the termination of the course of training.

None but Teachers trained at the Normal School of the Commissioners are eligible for promotion to *any division of the First Class*, and only upon the recommendation of the Professors, or of a Board of Inspectors.

Examinations are to be held, at specified times, by the Inspectors, with the view of promoting meritorious Teachers; while those who may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, will be liable to be depressed.

No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors that their Schools are properly organized and well conducted; that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior Classes are carefully taught, and that a fair proportion of the Pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in Plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

It must also appear, from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

None can be appointed as Assistant-Teachers whose qualifications are not equal to those required of Probationers.

Satisfactory certificates of character and conduct will be required of all Candidates.

3. EXAMINATION OF TEACHERS.

General Regulations.

I. It is intended that a General Examination of the Teachers shall take place every Fifth year. (The first General Examination took place in 1848 for Male Teachers, and in 1849 for Female Teachers.)

II. That a Special Examination shall be held in each of the intervening years.

III. That at these Special Examinations there will be required to attend—

1st.—All Candidates for Promotion.

2nd.—All Probationers.

3rd.—Teachers who may have been absent from the Examination to which they had been previously summoned.

4th.—Those whose answering at such previous Examination may have been unsatisfactory.

5th.—Those whom the district Inspector may think proper for special reasons to summon.

IV. Trained Teachers, except at their own request, and with the sanction of the District Inspector, will not be required to attend any Examination that may be held during the three years subsequent to the date of their classification by the Professors at the expiration of the course of training.

V. National Teachers, 45 years of age and upwards, who have served under the Board for a period of not less than 15 years, or Teachers who have attained 50 years of age, and served not less than 10 years, will not be required to attend any Examination, provided they have been already examined and classed by the Professors, or a Board of Inspectors.

VI. As the Commissioners have decided that *Teachers must remain Two Years in a lower Class before they are eligible for promotion to a higher*, the Candidates for examination with a view to promotion, must, each year, be restricted to those who come under this condition. With this restriction, however, it is to be understood, that deserving Teachers may at the second and all subsequent examinations, as well as at the first, be promoted from any division of one class to any division of a higher (except untrained Teachers, who cannot be placed in the First Class), without requiring them to pass through intermediate divisions.

VII. Teachers who may have absented themselves, without satisfactory reason assigned, from the examination of previous years, will be liable to be dismissed should they not present themselves when again summoned.

All Teachers also who may be *specially* summoned, and who shall be absent without a sufficient reason, will be liable to be fined or depressed.

VIII. The written part of the Examination for Male Teachers, which will occupy one whole day, will be held by the District Inspector, in Easter Week, at such central point in his District as he may think proper to fix upon.

IX. The period for the Oral Examination of the Male Teachers, and for the Examination of the Female Teachers, will be afterwards appointed; these Examinations to be conducted by a Head Inspector, aided by the Inspector of the District.

X. It is required that all those who may seek to become Candidates for promotion within the limits already laid down, shall intimate to the District Inspector, before the 15th March, that such is their wish, and he will inform them whether they may present themselves for Examination.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a-year at least.

2. Masters of National Schools, having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording Agricultural instruction, will receive £5 per annum, in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and that the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspector.

Assistant Teachers.

Salary not to exceed £15 for Males, and £13 for Females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed ; nor will they consider

any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognized by the Board.

2. When Applications for an Assistant are laid before the Commissioners, they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

1. In Schools of this description, salary is paid according to a per centage on the daily average attendance :—

For	100	daily average attendance	£20	Increase per cent.	£20	per annum.
„	200	„	40			
„	300	„	60			
„	400	„	77			
„	500	„	94	„	£17	„
„	600	„	111			
Above	600	„	„	„	£15	„

Where the daily average attendance amounts to 30 above the 100, Salary for 50 will be allowed; and when it amounts to 75 above the 100, Salary will be allowed for an additional 100.

2. As the amount of Salary will in all cases depend upon the average attendance of Pupils, Managers are to be prepared for augmentation or diminution accordingly.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

For the Second Year, . . .	£5.
For the Third Year, . . .	£7.
For the Fourth Year, . . .	£8.

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the National Schools, and appointed upon the recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the Schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, Candidates for the office of paid Monitors must undergo a Public Examination by the Inspectors, in prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant-Teacher, or of Pupil Teachers in District Model Schools.

WORKHOUSE SCHOOLS.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners of National Education have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes :—

For Male Teachers,	First Class, . .	Twenty at £6 a-year each.
	Second Class, .	Twenty at £4 a-year each.
For Female Teachers,	First Class, . .	Twenty at £5 a-year each.
	Second Class. .	Twenty at £3 a-year each.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received one year's gratuity, is not thereby *entitled* to a continuance of it.

PREMIUMS TO TEACHERS FOR ORDER, NEATNESS, &c.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10*s.* will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of £4, ...	£4
Two of £3, ...	£6
Five of £1 10*s.*, ...	£7 10*s.*
Five of £1, ...	£5

2. These Premiums will be awarded ANNUALLY on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premimus will be awarded without reference to the class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VIII. Notice to Managers of Schools relative to Payment of Teachers' Salaries.

VIII.

Notice to Managers of National Schools relative to the Payment of Teachers' Salaries.

The Managers of National Schools are particularly requested to attend to the following Instructions respecting the payment of Salaries to Teachers, as the Commissioners for Auditing the Public Accounts will not, in future, allow any documents to pass as Vouchers from this Office which are not in compliance with these Rules :—

1. Every Receipt should be signed by the Manager, and by the Teacher entitled to receive the amount of Salary therein specified.

2. Whenever a manager advances money to a Teacher on account of the Salary payable by the Commissioners of National Education to such Teacher, he should *take a Receipt* for the same on a Stamp, in order to have a proper Voucher to produce to this Office in case the Teacher die, or leave the School before the expiration of the Quarter.

3. If a Teacher die to whom any Salary is due by the Commissioners, the amount will be paid to the representatives or next-of-kin. The relationship of the party paid must, however, be stated in the Receipt ; and if such party cannot write, his or her mark will be received as signature, if witnessed by a third person.

4. If a Teacher leave a National School, and authorize the Manager, or some other person, to receive the Salary due from this Board, such authority must be given in writing, or the amount will not be paid. A Manager can always protect himself by attending to Rule No. 2.

5. As the Commissioners of Audit do not consider a Certificate of payment coming from the person who makes such payment a proper Document, no Manager's Certificate can in future be taken as a Voucher.

6. If Receipts which are sent from this Office for Signature, be not returned within a Month, the amount of Salary to which they refer will be cancelled, and remain over until the next quarterly payment becomes due. This rule will in future be strictly adhered to, in consequence of the inconvenience arising from such delays.

7. The Commissioners do not pay Salary for a broken period of a month, nor will they in future pay any Teacher a Month's Salary unless he shall have been in charge of the School for at least two-thirds of the month. Managers should, therefore, take care not to allow Teachers to leave their Schools before the last week of the month.

VII.—List of Teachers in National Schools to whom Premiums were paid in the Year 1854, for Order, &c., &c., in accordance with the following Scale.

No. 1.—Scale of Premiums to the Masters and Mistresses of National Schools who are most distinguished by the order, neatness, and cleanliness observable in themselves, their pupils, and in the School-houses.

The sum of £22 10s. to be allocated to each of the School Districts, to be divided into Thirteen Premiums:—

One of	£4 0 0	Five of £1 10s. each,	£7 10 0
Two of £3 each,	6 0 0	Five of £1 each,	5 0 0

These Premiums are to be awarded annually on the recommendation of the District Inspector, and paid at the end of the year.
No distinction to be made between Vested and Non-Vested Schools.
No Teacher eligible for these Premiums for more than two years in succession.
These Premiums will be awarded without reference to the Class in which the Teachers may be ranked: but none will be deemed eligible to receive such Premiums against whom there may be any well founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VIII.—List of Teachers of Workhouse Schools to whom Gratuities were paid in the Year 1854, in accordance with the following Scale :—

Scale of Gratuities to Masters and Mistresses of Workhouse Schools in connexion with the Board of National Education.

The Commissioners of National Education have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (Forty Males and Forty Females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

The Gratuities are divided into two Classes :—

For Male Teachers, { First Class, . . Twenty at £6 a Year each. / Second Class, . . Twenty at £4 a Year each. } For Female Teachers, { First Class, . . Twenty at £5 a Year each. / Second Class, . Twenty at £3 a Year each. }

The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each Year.

It is to be distinctly understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools under the provision of the Poor Law Act.

No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having once received it, is not thereby *entitled* to a continuance of it.

Maurice Cross, James Kelly, } *Secretaries.*

V. Instructions for District and Sub-Inspectors.

V.—Instructions for District and Sub-Inspectors.

I.—The year is to be divided into three Terms, during each of which fourteen weeks *at least* must be given, irrespective of all other work, and of vacations, &c., to the *effective inspection of Schools*, and in each week the first five days are to be so employed. The Terms are to commence, respectively, on the 1st of January, 1st of May, and 1st of September.

II.—From four to five hours, at least, exclusive of the time occupied in going to and returning home from the Schools, are to be spent, on the average, each day in the *actual inspection* of Schools; but when two Schools are inspected on the same day, the time spent in passing from one to the other will be accepted as accounting for part of the above *minimum*.

III.—Each Inspector will be required to visit and report on all the Schools in his District once in each Term.

IV.—When, however, from unavoidable causes—*and such must be clearly accounted for*—the Inspector shall not be able to complete his inspection of all the Schools within the Term, he is, in the succeeding Term, to visit those *first* which may have been so left in arrear. *Any departure from this rule will be regarded as a serious neglect of duty.*

V.—The Inspector is not to visit Schools during the ordinary vacations, or on any specified holidays. In connexion with this, the Inspector is required to make himself particularly acquainted, in the case of every School in his charge, with the days alluded to, and to see that they are specified in the Time Table. The *names* of the holidays need not be entered, their *dates* alone will suffice.

He is also to direct that when Schools shall be closed, from any cause whatever, at times other than those specified on the Time Table, he shall have such previous notice of the same given him by the Teacher as may prevent him from misemploying his time in visiting the school.

VI.—Should it, however, happen, that a School is unexpectedly closed at the time of the Inspector's visit, he is required to give an answer to all such queries as can be answered under the circumstances;

and he is also expected, if another School be within a reasonable distance, to visit and report upon it in the usual way.

VII.—The forms of report are henceforth to be distinguished into Primary and Secondary. On the first form, the Primary, each School is to be reported on *once* in each year; and on the second, the two remaining reports are to be made. In the case of new Schools, the *first* Report on them, after becoming National, should be made on the Primary form.

VIII.—The reports upon one-third of the Schools in each Term are to be made on the Primary form, and the remaining two-thirds on the Secondary.

IX.—When intending to report on a School on the Primary form—and such should never be used except the School is found in operation—the Inspector is to give due previous notice of the time of his visit; but in other cases he is not to give such previous notice, and the practice of notifying the day of inspection throughout the entire of the middle Term of the year is to be given up.

X.—With the exception of the case above stated, the Inspector is to take care to visit Schools as unexpectedly as possible; and with this view he should so arrange his course of inspection as not to remain, when from home, too long in the same locality, or to repeat his visits to Schools in the same neighbourhood or group in too immediate succession.

XI.—As many abuses may be prevented or corrected by incidental visits to Schools, the Inspectors are required to make as many such as possible, and in every case, after having ascertained whether former suggestions have been attended to, and evils previously pointed out corrected, to leave an entry of such visit in the Report Book, and record it under the head, *Incidental Visit*, in his Weekly Diary, accompanied, *if necessary*, by a special letter, in case of anything of pressing importance having come under his notice.

XII.—When two Schools are in the same house, or immediately contiguous, the Inspector should not defer visiting the second until he have completed his examination of the first, but should pass rapidly from the one to the other, remaining in, or returning afterwards to the one he means first to examine.

XIII.—When called upon to report on Applicant Schools the Inspector is not to give *previous* notice of the time of his inspection; but in every case, *after making such inspection*, he is to seek an interview with the manager or applicant; and in no instance is he to forward his reports upon such Schools until he shall have allowed sufficient time to the local clergy and others concerned to reply to his communications regarding the propriety or non-propriety of the Board's entertaining the application.

XIV.—In the case of Applicant Schools already in operation, the Inspector is to carefully examine the Teacher, and chiefly by written exercises, especially in Arithmetic, Geography, and Parsing; and these exercises together with, in every case, one in Writing from Dictation, he should carefully preserve for after reference.

Such Schools, to be entitled to favourable consideration, the Inspector is ever to remember, should, among other things, be found—

1st. Well disposed as to site.

2nd. To have premises clean and neat.

3rd. To have house well and substantially built; the walls plastered inside; the floor even, and free from damp; a suitable fire-place and funnel; the windows sufficient in number, of proper size and structure, and fitted to secure thorough ventilation.

4th. To have the furniture suitable and adequate, including desks and forms for pupils; book-press; black board, a desk with seat for Teacher; rails or lesson posts for suspension of reading and other tablets, &c.; and be prepared to purchase a clock, and at least one large map, that of the World, and a supply of books, stationery, and other school requisites, for sale to pupils at reduced prices.

5th. To afford satisfactory evidence of the promise of sufficient average attendance, and that without trenching on or interfering with the attendance on other National Schools in the neighbourhood already established, and in successful operation.

XV.—Teachers to be eligible for admission into the service of the Board should, if males, have *completed* their seventeenth year; and if females, their sixteenth. They should be persons of Christian sentiment, and of unexceptionable moral character, and free from such physical or other defects as would in any way interfere with their usefulness.

XVI.—On entering a National School with a view to its inspection, and after having introduced himself to the Teacher, if a stranger, or otherwise suitably addressed him, if known—*which should be his first duty*—the Inspector ought immediately to direct himself to observe whether the fundamental regulations of the Board are complied with, as regards—

A. 1st. The use of the movable "Tablet" intended to notify the species of instruction at any time being given, whether religious or secular.

2nd. The Commissioners' Rules, whether a copy is suspended in school-room for the perusal of visitors.

3rd. The Time Table, whether the religious instruction, if any, given in the School, is properly specified therein, both as to its time and *general* nature, and if the practice of the School is actually conformable to such notification. By general nature of religious instruction is simply meant, whether it is catechetical, or scriptural, or both, &c., &c. If the religious instruction happens to be going on at time of Inspector's visit, he is *in no way* to interfere with, or take part in it; but merely to observe that no other business, literary or industrial, is carried on concurrently with it; and he may employ himself usefully meanwhile also, in examining the school accounts, &c.

4th. The use of books, whether they are in all cases, where intended for secular instruction, such as are authorized by the Board, and whether those for religious instruction are used by the children at the proper times only.

5th. Whether the *General Lesson*, or a lesson of *similar import*, is used and its principles inculcated at the time of combined ordinary instruction.

B. 1st. He is to observe whether the business which is going on when he enters corresponds with that assigned to that particular hour on the Time Table; and, generally, with regard to this last document, which is meant to embody the law of the School, he ought to see whether the course of instruction set forth therein is judiciously arranged, and, above all, whether the arrangements which it indicates are really carried out in practice.

2nd. The Inspector should then proceed to examine the School Accounts, namely, the Class Rolls, Report Book, and Register, beginning with the first, and comparing the entries of these respective records one with the other; and in any case where he has reason to suspect unfaithfulness or incorrectness, he is to adopt the most effective means in his power, compatible with the delicacy due to the Teacher, and his position in relation to the children, to ascertain the nature

and amount of the irregularity, and afterwards record the particulars in his report, taking care, however, to distinguish mere informality, want of punctuality, omission, or neglect, from deliberate or designed falsification.

3rd. The Inspector is next to obtain the information required for the more purely statistical part of his report, as the number of pupils present in each class, or learning each subject; their ages; the supply of books and other requisites; the state of the free stock; the amount and sources of the incomes of the Teachers, Assistants, &c.; the state of repair of the house and school offices; the condition of the premises, &c., &c., &c. No school can be regarded as well supplied with books and requisites except one whose pupils are provided with the books of their respective classes, and where, in addition, there is a sufficient *sale stock* on hands to meet the current wants consequent on admission of new pupils or changes of classification.

4th. When all business of this preliminary nature shall have been completed, the Inspector will then enter on the more important part of his duty, which is the examination of the School as to its educational condition.

XVII.—In examining the pupils, and afterwards when recording his opinions and remarks in the Observation Book, the Inspector is to have constant reference and regard to the *School Programme* as to the branches to be taught, and the degree of proficiency to be attained in the respective classes, and in connexion with the several Reading Lesson Books.

XVIII.—In whatever order he may choose to examine the classes of the School, whether beginning with the lower and proceeding upwards to the higher, or the reverse—and either of these courses may be adopted with propriety according to circumstances and the different objects in view—the Inspector should be careful never to close his inspection without inquiring into the state and proficiency of the junior pupils.

XIX.—In regard to some subjects, as Grammar, Geography, Arithmetic, Writing from Dictation, Geometry, Mensuration, Algebra, &c., the Inspector may usefully examine, collectedly, all the pupils learning such branches, beginning with the first principles and simpler elements, and proceeding upwards to the higher, setting aside the younger and less proficient pupils as he advances from stage to stage, and retaining the more forward for further examination.

XX.—In forming a final judgment on the state of a School, the Inspector, at each inspection, should, besides other points which may occur to him, have principally regard to—

1st. The material state and general keeping of the entire establishment.

2nd. The *moral* character of the School.

3rd. The course of instruction given in it and the methods and processes of teaching employed.

4th. Whether the pupils are suitably classed according to their ages and capacities, and are taught such things, and have attained such proficiency, as in their circumstances they ought to be taught and to have attained.

5th. Whether the Teachers are competent, efficient, and influential; faithful in the observance of all suggestions left for their guidance, prompt in the correction of abuses, and eager for improvement; duly impressed with the importance of their office, and earnest and content in the discharge of its duties.

6th. Whether the whole air and aspect of the school, and the

tone and spirit pervading it be satisfactory or the reverse; and whether the bearing, language, and manners of the Teacher, his command over his pupils, and their deportment towards him, be such as ought to be observed.

7th. Whether admission to the combined general instruction given in the school, and upon which *alone*, consistently with the Rules of the Board, attendance may be *required*, is open to all children whatever, without any conditions as to their attendance on the religious instruction given in it; in other words, whether the combined general instruction is so open to all, that access to it is in no way made dependent on the observance of any rule whatsoever not obviously and legitimately providing for the proper carrying out of such combined general instruction and the ordinary discipline of the school.

XXI.—In addition to the Time Table, which is intended merely to indicate the general arrangements of the School, and the great divisions of its teaching, the Inspector should see that the Teachers are provided with a programme of study for each class, drawn up by themselves, and indicating the exercises for each week and day; and he should further see that the time given in such programme to each subject or branch of instruction, is sufficient and proportioned to its relative importance, and that the Teacher in all the exercises specified for each class, conforms to the rules set down by him in his programme.

XXII.—It should be the duty also of the Teachers to prepare beforehand *Notes or Heads of Lessons* on the lessons or subjects to be taught by them each day; and where this practice is not observed, the Inspector should recommend its introduction, and if necessary furnish the Teachers with instructions how to carry it out.

XXIII.—In the case of Infant Schools, the Inspector should see that the instruction is given with the necessary prudence and sobriety of mind, being suitably proportioned to the tender faculties of infancy, and accompanied at proper intervals with physical exercises and song; and, generally speaking, that the course is limited to the first and most simple elements of reading and writing, to the knowledge of forms and colours, with easy exercises on the Arithmeticon, and some notions, but of an entirely obvious and popular kind, of Geography and Natural History, and the more common trades and arts of life. The Teachers of such Schools should be directed by the Inspector to look carefully after the kind of food the children may bring with them for their refreshment, to provide them with pure drinking water, and look particularly to the cleanliness of their clothes and persons.

XXIV.—Inspectors are expected to keep themselves at all times fully provided with the gratuitous requisites or official forms for Schools, as Class Rolls, Time Tables, General Lesson, &c., and to supply them readily and at once wherever they may see them wanted.

XXV.—In every instance where, in the case of an ordinary National School, the Inspector observes any violation of rule, or existing defect, he is to suggest to the Manager or Teacher the necessity of its correction, and state in his report that he has done so, explaining further in what manner and with what spirit his suggestions have been received.

XXVI. Whatever observations or suggestions the Inspector may think it his duty to make in the Observation Book he should read over at the close of his inspection to the Teacher, and so explain as to make them fully understood.

XXVII.—On entering a District, and during the course of his first tour of inspection, the Inspector is to seek to make himself acquainted with the Managers or Correspondents, and on all subsequent occasions

to call upon them regarding any matters of importance that may come under his notice in their Schools.

When Managers are not at home, the Inspector should leave his *card* to intimate the fact of his visit.

XXVIII.—In cases where a dismissed Teacher still holds possession of a School, the Inspector is not to examine the children or enter into the minute details of a full inspection, but merely to report upon its general state, the condition of the Free Stock and other public property in possession.

XXIX.—When inquiring into the state of the supply of books, &c., the Inspector should be careful, in examining the lists of stock obtained at reduced prices, to see that no abuses are committed by local parties obtaining unduly requisites intended for the School and its pupils only.

XXX. The Inspector is not to make any entry in the Report Book, except the date of his visit, the time occupied by him in inspection, stating the hour at which it commenced and that at which it closed, with the number of pupils present. Should there appear any observations in the Report Book worthy of notice, by whomsoever made, he is to transcribe them into his Note Book and forward them in his Report to the office.

XXXI.—The Inspector is not to omit visiting any School on his District Book in consequence of hearing reports that it has been closed, or withdrawn from its connexion with the Board, but must *go to* the place and make inquiry into the circumstances, that he may afterwards report them correctly for the information of the Commissioners.

XXXII.—He is to bear in mind that he is not an administrator or authoritative director of the National System of Education, but simply and essentially an Inspector of its Schools; and that as such, his chief duty in reference thereto is to place before the Commissioners in clear, faithful, and comprehensive reports, the means by which *they* may interfere usefully and efficiently for the improvement of the Schools placed in connexion with them. He is not, therefore, to give direct *orders* as on the part of the Board, respecting any necessary regulations, much less is he to alter on his own authority any regulations already in existence, but make such suggestions to the Patrons and Teachers as he may think proper for the correction of observed abuses, the supply of existing wants, or for the improvement of the organization and management of the Schools.

XXXIII.—When the Inspector visits with a view to his primary Report, he should himself examine *all* the classes in the several subjects taught them, in order to make an accurate and a full return of their several stages of proficiency; but on the remaining visits, it is desirable, to enable him to judge fully of the Teacher's merits as a Schoolkeeper and instructor of youth, that he should forego the personal examination of *all* the classes, but rather instead, call upon the Teacher himself to examine the pupils of some classes, and in a few subjects, and put the School through its usual routine order of business in his presence.

XXXIV.—In all his intercourse with the Teachers, the Inspector is to treat them with the most perfect kindness and respect, counselling them privately on whatever he may see defective or faulty, but by no means addressing them authoritatively, or animadverting on their conduct in the hearing of their pupils; to whom also, in their turn, he is to exhibit a considerate and affectionate manner, and who are always to be addressed by him in language of the truest courtesy and propriety. He should surely take care to preserve himself from such peevishness,

harshness, or abruptness, in his communications with the children, as if observed by him in the Teacher it would be his duty not only to notice, but as a serious fault to deprecate and correct.

XXXV.—The Inspector, without seeming officiousness, unbecoming intermeddling, or too much curiousness, should as far as possible inform himself of the *general* character borne by the Teachers in his District, the estimation in which they are held by the people of their locality, their social position, and their conduct as members of society.

XXXVI.—The Inspector is to receive a Quarterly Report from the Teacher of each National School in his District, and is also himself to make one annually to the Commissioners. Forms for both these Reports can be had by applying to the office, and from their perusal the nature of the returns and information required, will be at once seen.

XXXVII.—The Inspector will be required, at the close of each Term, to forward to the office, on the required Printed Form, a return of the public duty of all kinds performed by him within the Term.

XXXVIII.—A book, known as the District Book, and which is substituted for the old "Road Book," is to be kept by the Inspector, who is required to record therein from time to time as he proceeds with his inspection, all matters of importance regarding each School in his charge.

XXXIX.—The Inspector is likewise to keep a "Note Book" of the form supplied by the Board, and in which he is to enter at each separate visit to a School all the details of his inspection; and this he is to do in so full a manner that such notings may be afterwards taken as a faithful record of the Report subsequently forwarded by him to the office.

XL.—A "Guard Book" is also required to be kept by the Inspector for the preservation of all official letters, Boards' orders, and other communications relating to his public duties.

XLI.—As it is the desire of the Commissioners, that the Head Inspectors in their tours of inspection through the Circuits of Districts placed in their charge, should examine the documents referred to in paragraphs XXXVII., XXXVIII., XXXIX., and XL., and if necessary report to the Board upon the manner in which they are kept, it will be the duty of the District Inspectors to have them always in readiness for examination, and in a state fully reflecting the work done by them each week up to the time they may be called for.

XLII.—The Commissioners require that, except in the case of sickness or some other unavoidable calamity, the Inspector shall have forwarded to the office, so as to reach it not later than each successive Monday morning, his Diary for the previous week, together with the Reports on the National Schools visited by him during the same period. He is also expected to observe the same punctuality in his general correspondence with the office, excepting only those cases where the interests of the public service may demand some further delay.

XLIII.—When Inspectors remain away on duty from their allotted centres for more than one or two days, they should leave instructions behind to have their official letters duly forwarded to them. An Inspector is not to leave his District, except when called upon to do so on business of the Board, or without having previously obtained permission from the office.

XLIV.—1st. The Commissioners direct that Inspectors shall on no account summon Teachers already classed for further promotion, whose Schools are not *in every respect satisfactory*, but more particularly as regards the nature and amount of the instruction imparted in them and

the proficiency of their pupils, their average attendance, and their general character for the observance of neatness and cleanliness, and for order in all the arrangements of their schools, and who are not themselves, moreover, distinguished by the thoughtfulness, earnestness, and zeal with which they devote themselves to their duty.

2nd. Teachers whom the Inspector intends to recommend for the Training Class in Dublin should have notice given them, at least six months previously, of such his intention, in order that they may have full opportunity to prepare themselves for passing the Entrance Examination in a manner at once creditable to themselves and satisfactory to the Professors. The course required for entrance is that prescribed in the Official Programme for Third Class Teachers, with the addition, in the case of Male Teachers, of the elements of Geometry; and on this course it is expected the Inspector shall carefully examine each of the Teachers whom he may purpose to recommend before making the usual return to the office; for he is to remember, that should any of those whose names he may send in be found, on examination by the Professors, inadequately prepared on the above Entrance or Preparatory Course, they will be refused admittance into the Training Class, and be obliged to return to their Schools.

3rd. None are to be selected who have been previously trained, or who are labouring under any physical defect, or who are not in the full enjoyment of sound health, or incapable of walking with ease to and from Glasnevin. Those under thirty years of age should have the preference.

XLV.—The Inspector is expected to make inquiries respecting the general state of education in the neighbourhoods he visits, the disposition of the people to receive instruction, and the merits or defects of that given in such Schools within their reach as may not be in connexion with the Board.

XLVI.—1st. Each Inspector is required to make himself thoroughly acquainted with the fundamental principles of the National System of Education, the Rules of the Board, and the general history and progress of its administration from its origin to the present time.

2nd. It is also expected of him that he should not only study to strengthen and enlarge his knowledge of the different branches of literature, philosophy, and science connected with or bearing on the duties of his office, but that he should likewise make himself familiar with the state of popular education at home and in other countries, and also seek to acquire, and, as opportunity offers, keep up and improve, acquaintance with the opinions and writings of the eminent educationists of the time.

XLVII.—The Commissioners make no rule against the Inspectors walking to the Schools, but they think it more becoming and more economical of the public time that they should drive to and from the Schools (except for very short distances), and with this view they *require* that each Inspector shall provide, and keep himself provided, with a horse.

XLVIII.—The Inspector is to avoid all polemical discussions of a religious or political nature; and in his public capacity, at the same time that he is to discharge his duty impartially and conscientiously, and irrespective of all local interests or party influences of whatever kind, he is to exhibit a courteous and conciliatory demeanour towards all persons with whom he is called upon to communicate, and in his intercourse with the Schools to pursue such a line of conduct as will tend to uphold the just authority of both Managers and Teachers; while in his private life, and in all social relations as a member of the community in

which he moves, he is required to support in a modest but becoming manner, the bearing, character, and standing of a gentleman, and scrupulously to avoid every thing calculated in any degree to lessen the respectability of his position, or detract from the influence of his office.

XLIX.—1st. In all his correspondence with the office, whether employed in drawing up his ordinary Reports, or making out returns of whatever kind, even those seemingly of the most routine and common place sort, the Inspector is to study to express himself with clearness, propriety, and precision, and to habituate himself to a style of penmanship at once neat, well defined, and entirely legible.

2nd. Except in the case of Schools not found in operation, *every* question in the Report Sheet, whether on Applicant or National Schools, should, as a general rule, have set down opposite to it, with whatever brevity expressed, a distinct, categorical reply, and all slovenly and inelegant abbreviations, bracketings, and dashes, should be carefully avoided. For, by leaving a question without an answer not *clearly* implied in a previous one, the Examiner of the Report may be often in doubt as to the fact referred to in the question, or whether the omission of a reply is owing to a simple oversight on the part of the reporter or to his supposing the answer inferable from a previous one, and that when perhaps it is not, or at least not clearly so.

3rd. Inspectors are expected to treat as confidential the letters addressed to them from the Office, particularly those relating to cases of special inquiry, to the conduct of Managers and Patrons, or to the admonition or depression of Teachers; nor are they, in any case, to give publicity to the contents of such communications, any further than their nature and purport obviously demand.

L.—The Inspectors are further required to comply with the following directions, in their correspondence with the Office :—

1st. All communications for which printed forms are not supplied are to be made on paper of foolscap size.

2nd. Should the communication relate to a school, the name of such school, with that of the county in which it is situated, to be stated at the head of the letter, as also the name and address of the Manager, and the name of the Teacher.

3rd. If the communication does not relate to any particular school, the subject of it, whatever it may be, should be set forth briefly, if practicable, at the head of the letter.

4th. Different subjects are not to be entered upon in the same communication, but each is to have a separate letter.

5th. The rank (whether "Sub" or "District Inspector") is to be added after the writer's signature, and also the number of the district of which he is in charge, or to which he may be attached.

6th. The word "Inspection" to be written, in large letters, in the left hand corner at bottom of the outside cover of all communications to the Office.

7th. All communications, not too bulky for such mode of conveyance, to be transmitted through the regular channel of the Post Office, and properly enclosed in suitable envelopes.

8th. All communications to be addressed to the Secretaries.

9th. Inspectors are, as much as possible, except in the regular way of reporting, to avoid making themselves the channel of communication between Managers of Schools or others and the public.

10th. Whatever applications for aid or notices of changes of Managers or Teachers are addressed to Inspectors, they are to acquaint the writers that such communications must be addressed to the "Secretaries."

Instructions to Inspectors in charge of District Model Schools.

LI.—Where a District Model School is placed in charge of an Inspector, he is expected, besides his stated and ordinary visits, to pay as many occasional or incidental calls as in his power, and such at all times of the day, as well during the ordinary school hours, as both before and after, in order that he may see not only that the principal teachers and their several assistants are observant of the rules of the institution as regards the employment of their time and the prosecution of their studies, but how also the domestic arrangements are carried out.

LII.—Instead of a weekly inspection of these institutions, as at present, three inspections in the term—each, however, to be separately reported on the form prescribed—will in future suffice; but, these inspections, it is to be distinctly understood, are to be of a serious and searching character; and with the view of making them truly such, the Inspector, instead of examining in detail all departments at each of those visits, should take them in succession, without, however, at any visit, neglecting to inquire into, and report on the attendance and classification of pupils in the others, and the *general* state of the whole establishment.

The Teachers will still be required to furnish Weekly Returns of the attendance, &c., of the Pupils, and these the Inspector, who will attend each Saturday at the Model School to receive them, after having checked and countersigned, will forward to the office.

LIII.—In recommending the appointment of Pupil-Teachers and Monitors, *who in every case should, before their selection,* have been carefully examined by the Head or District Inspector, or by both, the Christian and Surname, age, and religious denomination of each candidate, and also of the party causing the vacancy, are to be stated in full. The recommendation to be made on the printed form provided for the purpose, and signed by the Head and District Inspectors. A Return showing the denomination, &c., of the Pupil-Teachers or Monitors already in the school, is to accompany each recommendation.

LIV.—The periods for appointments are to be so regulated, as that there shall always be in the School a sufficient number well acquainted with its discipline and the nature of the duties to be discharged.

LV.—All appointments are to date from the first of the month; to secure the strict observance of this rule, the Inspectors should be careful to forward their recommendations a sufficient time beforehand to allow of the Board's sanction being duly obtained, and in no case are they to admit the persons recommended by them into these institutions without having first obtained the authority of the Board.

An allowance, temporarily sanctioned, at the rate of £20 per annum, is made to the Head Master for the board and washing of each Pupil-Teacher, and for the Assistant Master when boarded by the Commissioners.

Where there is an Agricultural Department in connexion with the District Model Schools, the Commissioners make a similar allowance to the Head Master for each free Agricultural Boarding Pupil, and for the Agriculturist when boarded by the Commissioners. Paying Agricultural Pupils are required to pay the Head Master, quarterly, and in advance, at the rate of £8 per annum towards their board and washing, the Commissioners likewise paying at the rate of £12.

A Monthly Return is to be made out by the Head Master of the number of days each Pupil-Teacher and Agricultural Pupil has been

APPENDIX D. V. Instructions for District and Sub-Inspectors.

boarded in the School; the Return is to be signed by the Master and Inspector, and forwarded within one week after the end of the Month.

The Inspector is not to permit the name of any Pupil-Teacher, or Agricultural Pupil, to be included in the Return, the approval of whose appointment by the Commissioners has not been notified to him from this Office.

LVI.—The parties selected for the office of Pupil-Teacher should, in no case, be under sixteen, nor above twenty years of age, and each should be provided with the following outfit :—

2 Suits of Clothes.	6 Pocket-handkerchiefs.
2 Night Shirts.	2 Pair of Shoes.
6 Day Shirts.	1 pair of Slippers.
6 Pair of Socks or Stockings.	Haircomb, Hairbrush, and Toothbrush.
4 Neckties.	

LVII.—Candidates for the office of Paid Monitor in Model Schools should not be under fourteen, nor over sixteen years of age.

LVIII.—Both Pupil-Teachers and Paid Monitors should be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

LIX.—Candidates for the office of Paid Monitor are to be examined, before appointment, on the course prescribed for the Monitors of the ordinary National School.

LX.—Candidates for the office of Pupil-Teacher should be required—

1. To read with ease and expression, and to have some knowledge of the principles of elocution, as explained in the first part of the Introduction to the Art of Reading.

2. To write out with correct spelling and punctuation, the substance of a short lesson selected from any of our Lesson Books, and read slowly to them twice over.

3. To write a good current hand, and be competent to superintend the writing of the junior classes.

4. To parse and analyze any passage selected from the National Lesson Books.

5. To know the general geography of the great divisions of the globe, and be familiar with the principles of Mathematical and Physical Geography.

6. To exhibit readiness in mental calculation ; to solve questions in Compound Proportion, Fractions, and Commercial Arithmetic, and be familiar with the principles involved in the rules and processes employed by them. The girls will not be examined beyond Interest.

7. To be acquainted with the prefixes and affixes of our own language, and the principal Greek and Latin roots.

8. To be able to examine, with a fair degree of efficiency, on any reading lesson selected, children of the Third Class, and competent to teach the rudiments of Arithmetic to the junior pupils.

10. To know the First and Second Books of Geometry with the exercises thereon, as given in Thompson's edition of Euclid.

11. To be acquainted with the elementary rules of Algebra, and able to solve questions in Simple Equations.

*Agricultural Class Book.
The girls are not to be examined on the subjects marked with an asterisk (*)

LXI.—At the end of the first half-year of their course of training, the Pupil-Teachers should be again examined on all prescribed for Candidates at entrance; and at the end of the second half-year, or completion of their first year of training, on the following in addition, viz.:—
Descriptive Geography, as contained in the Introduction to Geography;
The remaining Chapters in the Geography Generalized on Mathematical and Physical Geography, together with those on the Method of Teaching.
Lessons on Reasoning, 2nd Part;
The Second Section of the Fifth Book of Lessons;
The Third and Fourth Books of Euclid with the Exercises thereon, as given in Thompson;
The Fourth and Sixth Sections of the Treatise on Mensuration;
Involution and Evolution;
Sullivan's Grammar;
Dawes' Hints to Teachers;
The Introductions contained in the Book of Poetry.

At the end of the second half-year they should also be expected to have acquired a pleasing and tasteful elocution, and become thorough masters of a good style of penmanship.

LXII.—The Inspector should examine both Monitors and Pupil Teachers as frequently as due attention to his other duties will permit, and in every case record and preserve full and accurate notes of the results of his examination.

LXIII.—The Quarterly Account of School Fees is to terminate with the last Saturday of the months of March, June, September, and December, respectively.

LXIV.—The Commissioners' portion of the School Fees is to be paid over to the Inspector by the Teachers weekly, and remitted to this Office at the end of each quarter, without any deduction whatever, and by a Letter of Credit in favour of the Secretaries if possible, otherwise by a Post Office Order, and the charge for remitting in either case is to be included in the account of expenses.

LXV.—The account of the Fees received in the quarter is to accompany the remittance, signed by the Master and Mistresses, and certified by the Inspector.

LXVI.—The Inspector will be furnished with a sum sufficient to meet the ordinary petty expenses for three months, of the District Model School under his superintendence.

LXVII.—The Inspector is to transmit to the office the account, in duplicate, including all such expenses, certified by himself, within one week after the expiration of each quarter. The quarters to terminate with the last day of the months of March, June, September, and December, respectively. When the account has been examined in the office, a remittance will be made to the Inspector for the exact amount, thus leaving the original advance as a permanent imprest against him.

APPENDIX D.

V. Instructions for District and Sub-Inspectors.

LXVIII.—The account is in all cases to be signed by the Inspector and by the Master of the School, and by the Mistresses of the Female and Infant Schools, when expenditure is included relating to their respective departments.

LXIX.—Expenditure amounting to the sum of £2 or upwards is not to be incurred, without special authority previously obtained from the Office, except for ordinary School expenses.

LXX.—Rates and taxes not being chargeable upon public institutions used solely for educational purposes, the Inspector is to require that the description of the premises upon which a tax is levied, be particularized in the Notice left by the Collector, as well as the date when the rate was made, the valuation, and rate per pound. The Notice, when examined with the Applotment Book, or, should it not be available, the Collector's Rate Book, and found to be correctly charged upon the holding of the Commissioners, is to be certified accordingly, and forwarded with the receipt in support of the charge in the Quarterly Account.*

LXXI.—When a charge is made for printing "School Notices" or "Circulars, &c.," relating to the District Model School, a copy of the notice or circular is to be attached to the printer's receipt and forwarded in support of the charge in the Account.

LXXII.—The sums paid weekly for "Washing Schools" should appear in the Account as a monthly total, as also other charges of a very small amount, so as to avoid unnecessary petty detail.

LXXIII.—Vouchers written and receipted in *ink* are to be forwarded in support of every item of expenditure, properly signed, and numbered consecutively to correspond with the entry of the sums in the Account.

LXXIV.—Payments of £2 and upwards are to be supported by a stamped receipt, which is to be paid for by the party receiving payment.

LXXV.—In cases where the party paid is unable to sign his name to the receipt, his mark must be witnessed by a third person, whose signature is to appear upon the voucher.

LXXVI.—Receipt forms to serve as vouchers for small payments may be obtained from the Office on application, but these forms are not to be used in cases where various articles are purchased, for which "Shop Bills" in detail, properly receipted, are to be procured.

LXXVII.—The following is the scale of salaries sanctioned for Monitors in District Model Schools:—

Males.		Females.	
1st Year, . .	£6	1st Year, . .	£6
2nd ,, . .	8	2nd ,, . .	8
3rd ,, . .	10	3rd ,, . .	10
4th ,, . .	12	4th ,, . .	12

LXXVIII.—The Inspector is to transmit to the Office within one week after the end of each month a return of the Monitors employed in the Male, Female, and Infant Schools. When Male and Female Monitors are recognised, one return is to be used for both, which is to be signed by the Master and Mistresses, and by the Inspector.

LXXIX.—The return is not to include the name of any Monitor the approval of whose appointment by the Commissioners has not been notified to the Inspector from the Office.

* When residence is granted to a Teacher in addition to his salary, that portion of the District Model School occupied by the Teacher is chargeable with rates. Dormitories and rooms for Pupil-Teachers and Agricultural Pupils are not rateable. School premises are liable for one-half Poors' Rate, which is recoverable from the landlord.

LXXX.—Should a Monitor be unavoidably absent through illness, a substitute may be appointed at a salary of a Monitor of the first year, but the Inspector is not to continue to return the name of such Substitute-monitor for payment for a longer period than two months without the previous sanction of the Commissioners.

LXXXI.—The terms of service for—

Pupil-Teachers and Agricultural Pupils are also granted travelling allowance on leaving the School at the expiration of their term.

No allowance is granted for any distance less than ten miles.

The Inspector is to forward to the Office the account of such expenses, receipted by the Teachers and Pupils, and certified by himself.

LXXXIII.—The Inspector is to transmit to the Office upon the 30th June, and 31st December, in each year, a return setting forth the additions made to the furniture, &c., during the preceding six months, made out on the form supplied for the purpose. The return is to be a copy of the Register of the additions in the inventory kept at the School, which are to be carefully noted as they occur. Should no changes have occurred, a *Nil* return is to be forwarded, signed by the Inspector.

LXXXIV.—As the imprest in the hands of the Inspector is only intended for petty expenses, a requisition is to be forwarded with each quarterly account, stating in detail the articles (hardware, furniture, house-linen, &c.) required; particularizing those required to replace what have been worn out from what have not previously been in the School.
